

Department of Physics & Astronomy Fall 2005

## *Physics Colloquium Series*

# Albert Einstein

## The Physicist & the Man

2005 is the *world year of physics* in commemoration of Albert Einstein's "miraculous year," 1905, when working as a patent examiner, he published three ground-breaking papers that forever changed the way we think about physics and the world. This talk will highlight some of Einstein's contributions to physics, his worldview and commitment to social causes, and his simple way of life.

## Hossein Partovi

Department of Physics & Astronomy, CSUS

**Thursday, November 17, 2005**

**4:00-5:20 PM MND 1015**

**OPEN & FREE TO ALL STUDENTS & FACULTY**
