

Physics & Astronomy Colloquium

Fall 2011

Summer Research Projects:

Brief reports by physics majors on Summer 2011 projects

"Adventures in Detector Physics"

Alexandra "Sasha" Moskaleva

"Undergraduate Research - What to expect and how to prepare"

Sage Bauers

"Galaxy Evolution and the Butcher-Oemler Effect"

Ryan Voss

"Detecting the Sound Wave of Bubbles in Liquid Nitrogen"

Angela Galvez

"In Quest of Efficiency"

Thor Barrera and Robby Beard

Thursday, September 8, 2011

4:00 PM MND 1015

Open & Free to all Students, Faculty & Public
