NOTICE OF NON-COMPLIANCE (SAFETY)

PROJECT NAME: ____________________ CONTRACT NO. __________

CONTRACTOR: ____________________________________________________

Issued to Contractor’s representative, ______________________________________ (name)
on ______________________ at ______________________ An unsafe condition was observed
in the area of ____________________________________________________________
                                                                                   ____________________________________________________________
                                                                                   ____________________________________________________________

CSUS Inspectors will not inspect work in this area until the unsafe condition is corrected. Any
work done without inspection will be subject to rejection.

If the unsafe condition is not immediately corrected, the University may notify CAL-OSHA
Compliance Division for resolution of this matter.
