NO 409 PUBLIC NOTICE

Notice of Availability of Draft Environmental Impact Report
Campus Master Plan 2015
CSU Sacramento

Proposed Project: The California State University, Sacramento prepared a Draft Environmental Impact Report (EIR) for the Campus Master Plan 2015 project. The Campus Master Plan provides guidelines for the future physical development of the CSU Sacramento campus. The guidelines provide an integrated framework for the overall campus vision and include new and renewed academic, student support, and administrative facilities; new and renewed on-campus housing for students, faculty and staff; enhanced campus’ open spaces and landscaping that also functions as a sustainable stormwater management system; enhanced pedestrian, bicycle, and transit circulation and connectivity; building design, and sustainability.

Significant Environmental Effects of Project: The analysis in the Draft EIR concluded that the implementation of the Campus Master Plan will result in beneficial impacts of reducing vehicle miles traveled (VMTs); reducing vehicular air pollutant emissions and greenhouse gases (GHG); improving pedestrian and bicycle circulation networks on campus; increasing energy efficiency and reducing the use of electrical power for campus facilities and operations; reducing the use of water and generation of wastewater on campus; reducing stormwater flows and improving water quality, and enhancing aesthetics and visual character of the campus. The analysis also indicated that even with the implementation of the identified mitigation measures, the future construction of new facilities and improvements may result in significant intermittent short-term air quality and noise impacts from a peak construction day.

Public Meeting: The University will hold a meeting to receive public comments on the Draft EIR on February 24, 2015, 5:30PM at Folsom Hall, 7667 Folsom Blvd., Sacramento, CA 95819.

Where to Find the Draft EIR: The Draft EIR is available for public review during the public review period at the University’s website at www.csus.edu/aba/facilities, and at the Facilities Management Building and University Library at the CSU Sacramento campus.

If you would like to comment, please send your written comments so that they are received no later than March 12, 2015 to: Victor Takahashi, Director, Facilities Planning and Construction Services, 6000 J Street, Sacramento, CA 95819-6002; fax (916) 278-5229; email: takahashiv@csus.edu.
