Business Partner’s Roundtable
IRT Updates
October 18, 2011
IT Procurement

• Threshold for review of IT procurements for accessibility and information security will drop to $2,500, pending establishment of new procedures (anticipated Oct/Nov start).

• Please note that the dollar threshold is just a guideline. High-impact items below the formal threshold may still require accessibility review.
  – Networked printers or copy machines with public access must also now be evaluated.
  – Web consulting/software/content must comply with both web accessibility and IT security policies.
  – Digital media materials (video, DVD, online content) need to be captioned or subtitled if commercially available.

• To ensure timely delivery of needed items, please plan in advance (full reviews may take 1-8 weeks).

• Overall purpose of review is to save you money on IT procurements, while ensuring security and access to all.
CMS Upgrade Reminder

• Upgrade to begin on October 27th 2011, at 5:00 p.m.
• CMS Systems – Student and HR only – will be unavailable for up to a week
• CFS is unaffected; except that monthend close might be a little late
• Cognos Data Warehouse will be available

Forefront Malware Protection Migration

- Decision has been made to switch from MacAfee for virus protection on PCs to Microsoft Forefront
- MacAfee contract terminates on December 13, 2011
- Campus-owned PCs will be updated automatically
- If you are using MacAfee on a personally-owned computer, you must switch to Forefront at that time

Phishing E-mails

What is Phishing?
Phishing are cyber attacks. They come as e-mails that misrepresent their intentions to:

- Steal your account
- Steal personal information
- Exploit your system
- Generate money
