<b>Briefly describe the program proposal (new or change) and provide a justification.</b> The proposed program modification makes a significant change to the existing Child Development Major B. This proposal is within the context of a major overall program revision in which we propose a move from two different majors (Major A and Major B), to one major with numerous <u>concentrations</u> . The purpose of this specific proposal is to modify the current "Major B" to become one of the five concentrations in the Child Development program. Furthermore, other program changes are being proposed to make the program as effective as possible. <u>First</u> , we propose the addition of a new research-based course in observation and assessment to be included in the program requirements (new course is proposed and in the process of approval). This new course fulfills a programmatic need for many students going into educational and child-related work settings. <u>Second</u> , we propose changing our fieldwork course (CHDV 132) from 2 units to 3 units. <u>Third</u> , we propose changing the name of our major "Child Development Major B" to "Child Development – Integrated Pre-credential Subject Matter Program." This changes the current CHSM (Major B) major to a concentration within the overall Child Development major, and will help to reduce confusion for students in the major. "Integrated" refers to the notion that the students will be working on pre-credential courses, and preparing for application and admission (possibly early) to credential programs, in coordination with their academic advisor.
