Program Proposal Form B

Academic Group (College): Education	Date of Submission to College Dean: 5/3/07
Academic Organization (Department): Child Development	Requested Effective: Fall <input checked="" type="checkbox"/> Spring __, 2008 __.
Department Chair: Karen Horobin	Contact if not Department Chair: Karen O'Hara
Title of the Program: Child Development – Concentration in Early Development, Care, and Education (EDCE)	
Type of Program Proposal:	
<input type="checkbox"/> Modification in Existing Program: <input type="checkbox"/> Substantive Change <input type="checkbox"/> Non-Substantive Change <input type="checkbox"/> Deletion of Existing Program <input checked="" type="checkbox"/> New Programs <input type="checkbox"/> Initiation (Projection) of New Program on to Master Plan <input type="checkbox"/> New Degree Programs <input type="checkbox"/> Regular Process <input type="checkbox"/> Fast Track Process <input type="checkbox"/> Pilot Process <input checked="" type="checkbox"/> New Minor, Concentration, Option, Specialization, Emphasis <input type="checkbox"/> New Certificate Program	
PLEASE NOTE: Form B is to be used only as a Cover Form. Additional information is requested for each of the above as noted in the corresponding procedure in the Policies and Procedures for Initiation, Modification, Review and Approval of Courses and Academic Programs found at http://www.csus.edu/acaf/univmanual/index.htm	
Briefly describe the program proposal (new or change) and provide a justification. The proposed program modification makes a significant change to the existing Child Development Major A. This proposal is within the context of a major overall program revision in which we propose a move from a broad and unbounded choice of electives to a more formal set of concentrations within the major. <u>First</u> , we propose the addition of a new research-based course in observation and assessment to be included in the program requirements (new course is proposed and in the process of approval). This new course fulfills a programmatic need for many students going into child-related work settings. <u>Second</u> , we propose modifying the current biology foundation requirement from a program requirement to program prerequisite. While we feel strongly that Child Development majors must have a course in biology, most students already fulfill the Biology requirement as part of General Education. <u>Third</u> , we propose to change our fieldwork course (CHDV 132) from 2 units to 3 units. <u>Fourth</u> , we propose the creation of a new concentration – “Child Development – Concentration in Early Development, Care and Education (EDCE).” We have recently developed the CCE -based EDCE (Early Development Care and Education) program for working professionals. One of the new options within the major would replicate this option for our campus CSUS students. Community and campus sources have indicated a need for a structured program such as this, and providing it as a formal option will give our program greater visibility to those seeking this program, and better guidance to those who might seek the new “early learning credential” that is currently under development in California. The creation of such concentrations is needed because CHDV currently has a very long list (~ 70 classes)	

of electives. While they are organized in "emphases," students still report being confused by the many options.

Creation of formal concentrations would:

- 1) Reduce the confusion for students as to the purposes of our programs, and
- 2) Decrease the advising burden on faculty advisors, as the programs would be much more clearly delineated for students and faculty.
- 3) Make a better program of study, more effectively guiding students to career or further educational goals, rather than just choosing an assortment of classes that will count whether or not it has anything to do with these goals.

Approvals:
