This course replaces experimental course Subject Area (prefix) and Catalog Number (course number):	
This Catalog Number (course number) is being replaced:	

Change from:

Subject Area (prefix) & Catalog No. (course no.): MIS 133	Title: MULTIVARIATE BUSINESS STATISTICS	Units: 3
---	---	--------------------

Change to:

Subject Area (prefix) & Catalog No. (course no.): DS 133	Title: MULTIVARIATE BUSINESS STATISTICS	Units: 3
--	---	--------------------

JUSTIFICATION:

MIS 133 is a Decision Sciences subject. The topics in MIS 133 are more appropriately aligned with the topics taught in the Decision Sciences area. Using the MIS code instead of the DS pre-fix is a departure from the course coding alternative recommended by UPC and later by Faculty Council in 2005. In general, for the BSBA core courses the pre-fix represents the academic area and the number is being used to denote that they are core courses (100-105 were reserved for the BSBA core courses). Courses such as Business Law and Business Communications were coded as MGMT because the faculty teaching those courses chose the MGMT area as their primary area. The approach was extended to the International Business concentration, for example International Finance has the pre-fix FIN and International Marketing has the pre-fix MKTG. Logically, the same principles should be applied to all concentrations and minors to have a consistent and coherent coding system throughout the undergraduate programs offered by the CBA.
