This course replaces experimental course Subject Area (*prefix*) and Catalog Nbr (*course number*):

Change from:

Subject Area (<i>prefix</i>) & Catalog Nbr (<i>course no.</i>): LS 60M	Title: Reading for Speed and Efficiency for Multilingual Students	Units: 1 unit
--	--	----------------------

Change to:

Subject Area (<i>prefix</i>) & Catalog Nbr (<i>course no.</i>): LS 60M	Title: Reading for Speed and Efficiency for Multilingual Students	Units: 2 units
--	--	-----------------------

JUSTIFICATION:

LS 60M is a teacher-taught course that includes a self-paced computer reading lab where students use software to help improve reading speed. Students use the lab on a weekly basis; the instructor of the course monitors their attendance. They also are required to do an additional 12 hours of independent work in the lab. Adding an additional unit would reflect the lab work that the students are required to do in addition to one classroom hour/week.

NEW COURSE DESCRIPTION: (Not to exceed 80 words, and language should conform to catalog copy. See <http://www.csus.edu/acaf/univmanual/crspsl.htm> - Guidelines for Catalog Course Description)

Description of the Expected Learning Outcomes: Describe outcomes using the following format: "Students will be able to: 1), 2), etc." See the example at <http://www.csus.edu/acaf/example.htm>

After successful completion of the course, students will be able to:

- Understand and apply appropriate reading strategies to various texts.
- Read faster without losing comprehension.
- Use various techniques to improve your reading comprehension, including making accurate inferences and understanding textual organization.
- Make more effective use of study time.
- Better understand what is involved in "reading critically" and to apply this understanding to academic texts.
- Use new strategies for acquiring academic vocabulary.

****Attach a list of the required/recommended course readings and activities [Note: it is understood that these are updated and modified as needed by the instructor(s).] This attachment should be forwarded only to your Dean's office, not Academic Affairs.**

Assessment Strategies: A description of the assessment strategies (e.g., portfolios, examinations, performances, pre-and post-tests, conferences with students, student papers) which will be used by the instructor to determine the extent to which students have achieved the learning outcomes noted above:

GRADING: In order to receive the two units of credit for this course, students must:

- Complete the vocabulary project (total of 30 words, minimum)
- Pass a quiz on your vocabulary words at the end of the semester
- Complete at least 24 lab sessions
- Have no more than 2 lecture absences
- Show improvement on the Nelson-Denny post-test in reading speed and/or comprehension

COURSE DESCRIPTION:

This is a two-unit, credit/no credit advanced reading course. It is designed to help students improve their reading speed, comprehension, and analytical skills by learning effective reading strategies. If you apply these strategies when you study, your comprehension and retention will improve. However, the course cannot magically improve your reading skills; it is your responsibility to use the strategies introduced in the course as you read assignments for your other courses. This course is recommended for students enrolled in LS 87, English 2, English 109M, English 20 and other advanced courses that require strong reading skills. LS 86 students can attend if they have already taken LS 5 or if their reading score on the SDRT is higher than 9.0.

After successful completion of the course, you will be able to:

- Understand and apply appropriate reading strategies to various texts
- Read faster without losing comprehension
- Use various techniques to improve your reading comprehension, including making accurate inferences and understanding textual organization
- Make more effective use of your study time
- Better understand what is involved in "reading critically" and to apply this understanding to academic texts
- Learn new strategies for acquiring academic vocabulary

REQUIRED MATERIALS

1) LS 60M requires a very inexpensive textbook. Unfortunately, to keep it cheap (around \$10), you will need to go off campus to buy it at Copy Central (925 Howe Ave, 641-5535).

2) For the vocabulary project, buy 3x5" cards, punch holes in the upper left-hand corner and put them on a ring.

COURSE REQUIREMENTS

LECTURE:

- **Attendance:** The portion of this class only meets once a week; therefore, it is very important that you attend regularly and participate in class. More than two absences will result in no credit. Arriving late disrupts the class and distracts the other students. Do your best to be in class 2-3 minutes before the hour so that the class can begin exactly on time. Make sure I mark you present if you are late to class. If you do miss a class,

you are still responsible for the homework assignments. Contact me immediately if you must miss a class for any reason.

- **Vocabulary Project:** You will be required to personally acquire vocabulary by creating a personal vocabulary card file of at least 30 words. I will collect and check your Vocabulary Project three times, and at the end of the semester, you must turn in a complete Vocabulary Project in order to receive credit. At our final conference, I will quiz you about the words in your log, so be sure to review them regularly.
- **Homework:** In addition to your on-going Reading Lab sessions and Vocabulary Project, you will occasionally be required to read and annotate an article or write a journal. These assignments must be completed on time.

2) READING LAB:

- You must complete a minimum of **12 scheduled lab sessions** and 12 additional "TBA" sessions, for a total of 24 lab sessions. You must also maintain an up-to-date Reading Lab Log (handout) to receive credit. You must attend lab each week. If you miss lab, you are allowed **only one make-up session per week. Two sessions on the same day will be counted as one, so don't try to do two on the same day.**

NOTE: Your Reading Log will be checked against the computer records for accuracy.

- You must both save the results of the 12 scheduled lab sessions and the 12 TBA sessions on your assigned reading lab computer and write your results on the Reading Log. If you do not, I have no way to verify that you actually completed all the labs, and you will not receive credit for the course.

GRADING: In order to receive the two units of credit for this course, you must:

- Complete the vocabulary project (total of 30 words, minimum)
- Pass a quiz on your vocabulary words at the end of the semester
- Complete at least 24 lab sessions
- Have no more than 2 lecture absences
- Show improvement on the Nelson-Denny post-test in reading speed and/or comprehension. (Be sure to attend on the day the test is given!)
