Physical capability of dealing with young children and physically disabled persons.

Sufficient self-discipline and reliability to maintain and meet regular clinical schedules.

Sufficient emotional stability to work with difficult clients.

Once the student has met with the client(s) or students in the public schools, dropping clinical practicum classes by the student is prohibited except for medical reasons or extraordinary circumstances as approved by the Department. Students are not allowed to repeat clinical practicum courses if they drop without permission.

Must maintain a 3.0 GPA within the major (SPHP) with no SPHP clinical practicum course grade below a "B-" and no other SPHP course below a "C."

Pass a tuberculin (PPD) test and have measles, rubella and hepatitis B immunizations.

Have current CPR certification for infants, children and adults prior to beginning internships (SPHP 295B, SPHP 295C, SPHP 295D).

Must complete a Level 1 criminal background screening investigating any prior convictions and disciplinary actions. Failure to disclose a conviction may interfere with clinical placement. All background checks must be performed by Corporate Screening. Background checks performed by other agencies are not accepted. Students will complete background check following provided instructions. All results are sent to the Dean's office and remain confidential. Students with prior convictions or disciplinary actions which will interfere with clinical placement will be contacted by the department chair to determine a possible resolution. If a resolution cannot be found, the student will not be admitted into the clinical practicum courses.
