This course replaces experimental course Subject Area (prefix) and Catalog Nbr (course number):	N/A
If changing an existing course, should new version be considered a repeat of the original version? If so, the same Course ID will be maintained. If not, a new Course ID will be assigned. Note: In PeopleSoft terminology, the Course ID is the unique system identifier, not the Catalog Nbr.	Yes ___ No ___

Change from:

Subject Area (prefix) & Catalog Nbr (course no.): CE 161	Title: Theory of Structures I	Units: 3
--	---	--------------------

Change to:

Subject Area (prefix) & Catalog Nbr (course no.): No Change	Title: No Change	Units: No Change
---	----------------------------	----------------------------

JUSTIFICATION:

Current Prerequisites: Engr 112, Math 32, CE 146; CE 146 may be taken concurrently
 CE 161 is a core technical requirement in the major. CE 001A (Introduction to Civil Engineering) and CE 101 (Computer Applications in Civil Engineering) are introductory classes. CE 146 (Professional Practice) is a bridge class that can be taken concurrently with either the introductory classes or the core technical classes. Accordingly, CE 001A and CE 101 can be taken concurrently with CE 146. Unfortunately, students interpret this to mean that they can take all the classes, CE 001A, CE 101, CE 146 and CE 161, concurrently. The change in prerequisites proposed here closes this unintentional loophole. The department intent is that students should complete the introductory classes (CE 001A and CE 101) before attempting core technical classes.

New Prerequisites: Engr 112, Math 32, CE 001A, CE 101, CE 146; CE 146 may be taken concurrently
