**Briefly describe the program proposal (new or change) and provide a justification.**

The Division of Nursing requests the following program changes in collaboration with the College of Business Administration. The current program was found to contain coursework for which the graduate nursing students did not possess the depth of business background to assure success and therefore application and synthesis of content. After a needs assessment was completed with students that attempted the current program, it was found that not only was there a challenge with content, but the content in the proposed program would be more aligned with the administration role in nursing. After evaluating the needs and academic levels of the students, the proposed program supports the nursing curricula and meets the educational needs in leadership and management preparation. The College of Business concurs and supports this change in the program.
