<b>Briefly describe the program proposal (new or change) and provide a justification.</b> This proposal is to add one new CHDV course (CHDV 292) to the list of required courses for students opting for the Examination for their culminating experience. Currently, exam option students are required to take an additional elective to meet the unit requirements for the program. We would like to replace the elective with CHDV 292. The course is designed to provide preparation for students taking the exam. We believe the course will provide necessary academic and social support and improve student performance on the exam.
