**Briefly describe the program proposal (new or change) and provide a justification.**

The proposed increase in the number of units of CSC 8 (from 2 units to 3), a required course for this certificate program, will increase the number of units required for this program from 20 to 21. The change in the number of units of CSC 8 more accurately reflects the current course load.

Also, it has been the practice of the department to allow the substitution of CSC 8S for CSC 8. This program change would formalize this practice. (There is also a proposal to increase the number of units from 2 to 3 for CSC 8S.)
