---

This course replaces experimental course Subject Area (prefix) and Catalog Nbr (course number):

---

### Change from:

| Subject Area (prefix) & Catalog Nbr (course no.): BIO 010 | Title: Basic Biological Concepts | Units: 3 |

### Change to:

| Subject Area (prefix) & Catalog Nbr (course no.): BIO 010 | Title: Basic Biological Concepts | Units: 3 |

---

### JUSTIFICATION:

The purpose of this change is to increase the lecture for this course from 2 to 3 hours per week and to remove the lab. The lab change will be offset by the addition of a new lab course, Bio 15L, which will be open to all students who have completed, or are currently enrolled in, Bio 9, 10 or 20. The increase in lecture time will allow the material to be addressed more fully and will allow time for the incorporation of additional elements such as problem-based learning and case studies to address current issues facing society.

---

### NEW COURSE DESCRIPTION:

(Not to exceed 80 words, and language should conform to catalog copy. See http://www.csus.edu/acaf/univmanual/crspsi.htm - Guidelines for Catalog Course Description)

Introduction to the biological sciences with emphasis at the molecular and cellular levels. Concepts and principles common to all living systems and how these help us understand current issues facing society today will be stressed. Designed for non-majors. Lecture three hours. Units: 3.0.

Note: Not open to Biological Sciences majors or students who have received credit for Bio 001 or Bio 002.

- Prerequisite: None
- Enforced at Registration: Yes ___ No ___
- Corequisite: None
- Enforced at Registration: Yes ___ No ___

### CAN (California Articulation Number):

- Graded: Letter X_ Credit/No Credit___
- Instructor Approval Required? Yes ___ No X___

### Course Classification (e.g., lecture, lab, seminar, discussion):

- Lecture, C-2
- Title for CMS (not more than 30 characters): Basic Biological Concepts

### Cross Listed?

- Yes ___ No X___

If yes, do they meet together and fulfill the same requirement, and what is the other course.

### How Many Times Can This Course be Taken for Credit?

- Once___

### Can the course be taken for Credit more than once during the same term?

- Yes ___ No X___
FOR NEW COURSE PROPOSALS OR SUBSTANTIVE CHANGES ONLY:

**Description of the Expected Learning Outcomes:** Describe outcomes using the following format: "Students will be able to: 1), 2), etc." See the example at http://www.csus.edu/acac/example.htm

1. Students will demonstrate an understanding of the characteristics of living systems, including their chemical and physical aspects and be able to compare them to the characteristics of non-living systems.
2. Students will demonstrate an understanding of the cell and its functions as the fundamental basis of life.
3. Students will demonstrate an understanding of the interrelationships among living things and between living things and their environment.
4. Students will demonstrate an understanding of the cellular and molecular mechanisms that insure reproduction and the continuity of life.
5. Students will demonstrate an understanding of the mechanisms and outcomes of evolution.
6. Students will express in writing their understanding of the concepts of the course through quizzes and other writing assignments.

**Attach a list of the required/recommended course readings and activities [Note: it is understood that these are updated and modified as needed by the instructor(s).] This attachment should be forwarded only to your Dean's office, not Academic Affairs.**

**Assessment Strategies:** A description of the assessment strategies (e.g., portfolios, examinations, performances, pre-and post-tests, conferences with students, student papers) which will be used by the instructor to determine the extent to which students have achieved the learning outcomes noted above:

Lecture exams, quizzes, opinion paper addressing current issues

**For whom is this course being developed?**
Majors in the Dept ___ Majors of other Depts ___ Minors in the Dept ___ General Education ___ Other ___

Is this course required in a degree program (major, minor, graduate degree, certificate)? Yes ___ No ___

If yes, identify program(s): BA, Biochemistry concentration

Does the proposed change or addition cause a significant increase in the use of College or University resources (lab room, computer facilities, faculty, etc.)? Yes ___ No ___

If yes, attach a description of resources needed and verify that resources are available.

Indicate which department or programs will be affected by the proposed course (if any). Chemistry ___

**The Department Chair's signature below indicates that affected programs have been sent a copy of this proposal form.**

**Approvals:** If proposed change, new course or deletion is approved, sign and date below. If not approved, forward without signing to the next reviewing authority, and attach an explanatory memorandum to the original copy.

**Signatures:**
