Prefix and No. CrJ 177, Administrative Law for Public Safety Personnel

### JUSTIFICATION:

This is proposed as an elective for the Criminal Justice Major and a requirement in the Fire Service Management special major administered by the Division of Criminal Justice. (no form B required for change in special major)

This course addresses the increasingly complex area of rules and regulations that impact public safety. These rules and regulations are promulgated on a regular basis by the federal government, regional and state agencies and local government and apply to a variety of public safety agency functions including employment: licensing; seizure, forfeiture and condemnation of property; management of prisoners, parolees and probationers and exercise of the general police and regulatory powers. It will include administrative law, rule making and hearings at the federal, state and local levels and serve as an elective for criminal justice majors. Existing courses in business and employment law do not address public agency functions or the unique requirements for public safety agency personnel actions. No course on administrative law currently exists on this campus.

Each paper will be 6-8 pages in length, double spaced, using standard business typefaces.
