### Course Change Proposal Form A

**Academic Group (College):** NSM  
**Academic Organization (Department):** Biological Sciences  
**Date:** 5/20/09  
**Type of Course Proposal:** New __X__ Change ____ Deletion ____  
**Department Chair:** Rose Leigh Vines  
**Submitted by:** Jennifer Lundmark  
**Does this course fulfill a requirement for single-subject or multiple subject credential students?** Yes __X__ No ____  
**For Catalog Copy:** Yes __X__ No ____  
**CCE (Extension):** Yes ____ No __X__  
**Semester Effective:** Fall ____ Spring __X__, 2010 ____

This course replaces experimental course **Subject Area (prefix) and Catalog Nbr (course number):**  
If changing an existing course, should new version be considered a repeat of the original version? If so, the same Course ID will be maintained. If not, a new Course ID will be assigned. Note: In PeopleSoft terminology, the Course ID is the unique system identifier, not the Catalog Nbr.  
**Yes ____ No ____

**Change from:**  
**Subject Area (prefix) & Catalog Nbr (course no.):**  
**Title:**  
**Units:**

**Change to:**  
**Subject Area (prefix) & Catalog Nbr (course no.):** BIO 195T  
**Title:** Teaching Internship  
**Units:**

### JUSTIFICATION:
BIO 195T will serve as an additional elective course for Biology majors and minors and will add diversity to courses offered by the Department of Biological Sciences. BIO 195 (Biological Internship) is too broad a course, which can involve training in any area related to biological sciences. The "T" in BIO 195T stands for "Teaching." This designation will provide the prominent recognition that students will receive an early field experience in teaching, which is required to meet the requirements for the Single Subject Matter Program in science. Students will work in selected K-12 classrooms, meet regularly with their supervising high school teacher, and submit a field experience journal for credit.

### NEW COURSE DESCRIPTION:  
(Not to exceed 80 words, and language should conform to catalog copy. See http://www.csus.edu/umanual/acad.htm - Guidelines for Catalog Course Description)

Supervised non-paid internship experience in K-12 teaching. Includes regular meetings with supervising teacher and submission of a field experience journal. No more than 2 units from BIO 195, 197 and 199 combined can be applied to the biological sciences upper division major requirement. Prerequisite: Department chair and instructor (an advisor within the Single Subject Matter Teacher Preparation Program) permission. Graded: Credit / No Credit. Units: 1.0-2.0 (1 unit = 40 hours of participation/semester and 2 units = 80 hours of participation/semester).

**Note:**  
Prerequisite: Department Chair and Instructor permission  
Enforced at Registration: Yes __X__ No ____  
Corequisite:  
Enforced at Registration: Yes ____ No ____  
**Graded:** Letter Credit/No Credit __X__  
**Instructor Approval Required:** Yes __X__ No ____  
**Course Classification (e.g., lecture, lab, seminar, discussion):** S1  
**Title for CMS (not more than 30 characters):** Teaching Internship  
**Cross Listed?** Yes ____ No __X__  
If yes, do they meet together and fulfill the same requirement, and what is the other course.  
**How Many Times Can This Course Be Taken for Credit?** 4 ____  
**Can the course be taken for Credit more than once during the same term?** Yes ____ No __X__
FOR NEW COURSE PROPOSALS OR SUBSTANTIVE CHANGES ONLY:

Description of the expected Learning Outcomes: Describe outcomes using the following format: “Students will be able to: 1), 2), etc.”
See the example at www.csus.edu/acaf/example.htm

Students will be able to:
- Demonstrate knowledge of basic safety procedures within a K-12 classroom
- Describe the biological sciences content addressed in the K-12 classroom
- Communicate with students and teachers in a professional manner.
- Demonstrate exposure to various pedagogical approaches

**Attach a list of the required/recommended course readings and activities [Note: it is understood that these are updated and modified as needed by the instructor(s).] This attachment should be forwarded only to your Dean's office, not Academic Affairs.

Assessment Strategies: A description of the assessment strategies (e.g., portfolios, examinations, performances, pre-and post-tests, conferences with students, student papers) which will be used by the instructor to determine the extent to which students have achieved the learning outcomes noted above:

Students will be assessed based on the following:
- Field experience journals that will include details of the date and time of the visits, specifics of what he/she observes, and some reflection on the experience. The log is turned in to the faculty member sponsoring the unit(s) to review as part of the course requirements twice during the semester, and at the end of the semester for final course credit.
- Feedback from supervising teachers
- Interactions with sponsoring faculty member during mid-semester meetings

For whom is this course being developed?

</thead>
</table>

Is this course required in a degree program (major, minor, graduate degree, certificate)? Yes ___ No X ___

If yes, identify program(s):

Does the proposed change or addition cause a significant increase in the use of College or University resources (lab room, computer facilities, faculty, etc.)? Yes ___ No X ___

If yes, attach a description of resources needed and verify that resources are available.

Indicate which department or programs will be affected by the proposed course (if any). None

The Department Chair's signature below indicates that affected programs have been sent a copy of this proposal form.

Approvals: If proposed change, new course or deletion is approved, sign and date below. If not approved, forward without signing to the next reviewing authority, and attach an explanatory memorandum to the original copy.

INSTRUCTIONS:

This form must be completed during the first TWO weeks of the semester. Obtain all three signatures. Submit the completed form to the Department Secretary of the Department of Biological Sciences. Students must sign the form on the back of this sheet. Thank you.
COLLEGE OF NATURAL SCIENCES AND MATHEMATICS

Health and Safety Guidelines for Off-campus Learning Experiences
(Internships, Cooperative Education, Service Learning)

A. Students must be informed by the host organization of any foreseeable personal
   health or safety risks that may be inherent in an off-campus learning experience.

B. It is the student's responsibility to ask the host organization about any potential
   personal health or safety risks. It is also the student's responsibility to comply
   with the host organization's health and safety requirements.

C. Students are responsible for any pre-placement health and safety preparation and
   must participate in such preparation when it is offered by the host organization.

D. The University does not assume liability for students participating and does not
   provide liability or medical coverage for participants in the above-mentioned off
   campus learning experiences. Students should be advised that they can purchase
   secondary medical insurance through ASI.

E. No University employee (management, staff, or faculty) shall sign a "hold
   harmless and indemnification" agreement from a host organization.

I am clearly aware, have read, and have received a copy of the above guidelines prior to
my participation in any off-campus learning experience and agree to abide by the
conditions therein.

________________________________________  _____________________________
Name (Type/Print)                                SSN

________________________________________  _____________________________
Signature                                      Date

The signed original of this form is to be retained for a minimum of three years in the
office of the sponsoring NSM department, and a copy is to be given to the student.

*Approved by the NSM Academic Council on April 13, 1999.
Policy Guidelines for BIO 195 Internship in the Department of Biological Sciences

I. Goals and Objectives

The purpose of an internship is to provide the opportunity for Biological Sciences majors to have a supervised work-learn experience in a public or private agency in a career area that is related to the student's majors. To be a valid learning experience the internship should (1) enrich and reinforce the academic program of the student, (2) take place under adequate supervision, (3) permit evaluation of the experience, (4) allow the student to integrate knowledge and apply concepts learned in the classroom, and (5) demonstrate the relationship between the student's academic program and the world of work.

II. Qualifications

This program is limited to upper division or graduate majors in the Department of Biological Sciences who have the necessary background to perform the tasks involved with the particular internship.

III. Nature of the Work

The work involved in an internship should be similar to that expected of full-time employees of the agency. The intern is expected to put in 40 volunteer contact hours per unit of credit.

IV. BIO 195 Petition

The student is responsible for submitting the completed 195 petition to the department's secretary. This petition includes (1) a brief description of the work to be performed by the student intern, and (2) signatures of the supervisor from the sponsoring agency, the sponsoring professor from the Biological Sciences faculty, the department's chair, and the student intern. The completed petition must be filed in the department office before the student begins internship duties. Internship credit cannot be given for past work experience.

V. Evaluation/Grading

Internships will be graded Credit/No Credit. (1) A written evaluation will be submitted by the supervisor from the sponsoring agency to the sponsoring professor (2) who will submit the grade.

VI. Limitation of Credit

No more than two units from BIO 195, 197, and 199 combined can be applied to the Biological Sciences upper division major requirements. Units received for BIO 195 will not count toward the 30 units for the Master's Degree.
