Additional information is requested for each of the above as noted in the corresponding procedure in the Policies and Procedures for Initiation, Modification, Review and Approval of Courses and Academic Programs found at <http://www.csus.edu/umannual/acad.htm>

Briefly describe the program proposal (new or change) and provide a justification.

The SPHP 218 course was divided into 2 separate components due to course content divergence. Although both courses have as their basis the biological, acoustic, psychological, developmental, linguistic, and cultural bases for motor speech disorders, the SPHP 218 segment of the course focuses on oral communication and its assessment and evaluation. The SPHP 217 segment of the course focuses on augmentative and alternative communication and assistive technologies and their assessment and treatment techniques.
