Dear {#First Name#},

During the last few weeks, important messages from Sacramento State may have been sent to your Saclink email account. If you have not done so lately, be sure to check your Sac State email on your My SacState account as soon as possible. Once you have become fully enrolled at Sacramento State, all important campus notices will be sent to your Saclink email, so please take this opportunity to become familiar with its use.

We congratulate you again on your admission for Fall 2014, but there is still more to do to complete your admission requirements – so keep up on important dates and deadlines by visiting the "I Have Been Admitted" web page and checking your email account frequently.

Thank you.
