Eligibility Index

The eligibility index (EI) is the combination of your high school grade point average and your test score on either the SAT or ACT. Using SAT: (scores in mathematics and critical reading) = (800 x high school grade point average) Using ACT: 10 x ACT composite score (without the writing score) + (200 x high school grade point average) California residents within our local admission area must have a minimum index of 2900 using the SAT or 694 using ACT scores. Eligibility for California residents outside our local admission area will be determined by the characteristics of the applicant pool after all applications are collected. Non-California residents must have a minimum index of 3502 using SAT or 842 using ACT scores.

Local Area for Admission is defined as a student who graduated from a high school in one of the following counties: Sacramento, El Dorado, Nevada, Placer, San Joaquin, Sierra, Solano and Yolo.
