

Dear {#First Name#}:

Congratulations on your early admission to Sac State! If you have not already done so, I urge you to apply to the General Education Honors Program. The Honors Program offers a small, close-knit community of learners within our larger university. We only accept 75 first-year students each year. Honors students are provided with personalized attention, including small group discussions and one-on-one interaction with faculty and peer mentors. Our students enjoy the advantages of priority registration, excellent faculty, and challenging and engaging coursework with a global emphasis. The Honors Program is comprised entirely of General Education courses and complements any major.

To apply for this selective program, please see <http://www.csus.edu/honorsprogram/honorsapplication.html>. Applications remain open until the cohort is full. Space is limited so do not delay.

Best wishes as you embark on your new academic journey.

Professor Lee Simpson
Director GE Honors Program
