

The Tools Web site provides tips, tutorials, and examples for course-building elements and educational activities that can provide creative, alternate methods of instruction including video, audio, and presentational tools. A variety of applications, templates, and software are included to add new interest to your course. The site has interactive exercises that could be adapted for your course.

## TOOLS FOR BUILDING YOUR COURSE

### AUDIO & VIDEO

Add video to your course or PowerPoint presentations.

Create movies or audio files with Pinnacle Studio (PC)  
or iMovie (Mac)

Audio with RealProducer Basic

### E-LEARNING

Create interactive multimedia activities using ToolBook.

Create learning activities using StudyMate.

### QUIZZES

Build quizzes, self-tests, and surveys using Respondus.

### READING & WRITING

Teach students to analyze literature with this tool.

Critical Analysis

## MORE COURSE BUILDING TOOLS

### BROWSER PLUG-INS (MAC AND PC)

Plug-ins necessary for viewing video, animations, QuickTime movies, PDF files, and Java Applets:

- Acrobat Reader
- Flash Player
- Java
- RealPlayer
- Shockwave
- Quicktime Player
- Windows Media Player (Flip4Mac)

### TEMPLATES

- Audio and video Webpages
- Faculty Web Template
- PowerPoint Themes

### TUTORIALS

Learn how to use applications online with self-paced tutorials:

- iMovie
- Pinnacle Studio
- Respondus
- StudyMate

### NOTES

- Examples on the utilization of many of these tools are also available at the Web site.
- Respondus is a testing and assessment tool that aids in creating quizzes for WebCT and print. Sac State has a site-wide license for Respondus so that all faculty may utilize this program.
- StudyMate is an activity builder that makes it easy to create flash cards, challenge games, and crosswords for WebCT, Web or print. Sacramento State has a site-wide license.
