## Study tests Japanese views on California rice

Japanese consumers know rice. And nearly 80 percent of them “know” that California grown rice is inferior to domestically produced rice, and maintain they can tell the difference.

The perception plays a significant part in justifying Japanese trade restrictions on imported rice. But can they really tell the difference?

“The answer is, ‘no,’” said Ken Chinen, professor of international business at CSUS. “In blind tests they cannot tell the difference even though they say they can.”

Chinen, a native of Japan, put Japanese tastes and beliefs to the test in a series of experiments conducted in Sunnyvale and Sacramento. He asked 161 Japanese nationals to taste two portions of short-grained white rice—the kind preferred in Japanese cooking—and rate the samples according to sweetness, stickiness, texture, fragrance and whiteness. Participants were also asked a series of questions about their attitudes toward domestic and imported rice and, finally, to identify the samples as being Japanese- or California-grown. His findings will be presented at the Global Business Education Symposium on Feb. 11 in the University Union.

When the results were compiled they showed that Japanese consumers could not clearly tell the difference. Of the 80 percent who expressed a preference for rice grown in Japan, 40 percent misidentified the Japan-grown product. Participants did even worse if they made their choices by smell alone: 50 percent incorrectly identified the Japanese-

grown rice by its fragrance.

“Statistically speaking, there is no significant difference,” Chinen said. “It’s just an issue of perception. Rice is rice.”

Chinen said the real issues behind official Japanese distaste for foreign rice is economic and cultural, with a dash of national security.

“In Japan, rice is the source of culture, religion, wealth, power and aesthetics,” Chinen said. “Rice is not just food, rice is more than that.”

Domestic rice production is also tied to national security through fears that Japan—which relies on food imports to feed its burgeoning population—could be held hostage by foreign rice growers if it became dependent on imported rice. While that might be acceptable for other food products, to allow it to happen to rice would be perceived as a crisis.

“They worry that, some time in the future, other countries might use rice as a weapon,” Chinen said. Indeed, 65 percent of the Japanese surveyed by Chinen said they were concerned about the island nation’s future food supply. In addition to worries about “food security,” the Japanese are also concerned about the safety of foreign-grown rice. They fear that foreign rice may be contaminated with pesticide residues or harmful preservatives. According to a survey conducted by the Japanese Food Agency, 80 percent of Japanese consumers who prefer domestic rice are concerned about food safety. In Chinen’s

### LOST LOVE FOUND

– Psychology professor Nancy Kalish fields interview requests from all over the world for her studies on lost loves who reunite. The research was also the basis for the book *Lost and Found Lovers: Facts and Fantasies of Rekindled Romances* and a website [www.lostlovers.com](http://www.lostlovers.com).

## If lost loves meet again, it's for keeps

When it comes to old flames, the Hollywood ending is a smokescreen, says Nancy Kalish. The CSUS psychology professor has been studying relationships between lost loves for nearly a decade and says movies like *Castaway* and *Casablanca* – where reunited couples resist the urge to rekindle their relationships don’t tell the true story.

“Movies rarely get it right. Real life is happier than Hollywood,” she says.

Kalish will present her research before the Western Psychological Association Convention in Vancouver in May.

The “Lost Love Project” began after Kalish tried to re-

establish her own relationship with a lost love. She was quite surprised to find that no one else was doing research on the topic. An Associated Press article on her work, along with an appearance on the show “20/20,” led to interview requests from all over the world and the subsequent publicity brought contacts from more than 1,000 people who had met up with lost loves.

The result was a book, *Lost and Found Lovers: Facts and Fantasies of Rekindled Romances*, which features her research findings as well as stories about the couples’ experiences. Though its now out of print, it is available at Kalish’s website, [www.lostlovers.com](http://www.lostlovers.com).

Kalish found that rekindled romances are amazingly successful. Seventy-two percent of the couples in her study ended up

staying together. “It’s not a fantasy,” she says.

The couples in the study represented a wide range of ages – 18 to 84 – with an average age of 35 who had spent at least five years apart. Usually the initial breakup was situational – the parents disappeared, one party moved out of town or one of them had either gone off to war or had left a war-torn country.

Kalish first began gathering data in 1993. She found what brought some reunited couples together was a visit to the hometown. In many cases it was a turning point in their lives such as a divorce, widowhood or a serious illness.

The cliché of the high

## Renaissance Society offers full slate for spring

The Renaissance Society has filled its spring semester agenda with nearly a dozen informative forums designed for retired seniors. The forums are at 3 p.m. each Friday from Feb. 14 through May 2 in Mendocino Hall 1003. There is no forum April 18 because of spring break. All are free and open to the public.

On Friday, Feb. 14 *Sacramento Bee* columnist Dan Walters shares his opinions on politics and the state capitol. On Feb. 21, emeritus econom-

ics professor Marc Tool discusses ideas drawn from his new book *Institutional Analysis and Economic Policy*.

There’s an afternoon of music and dance on Feb. 28 when cast members from the campus production of *Cabaret* join theatre professor Ed Brazo. Brazo will discuss life in musical theater and the CSUS version of *Cabaret*, opening on March 20. Then on March 7, *Sacramento Bee* editorial cartoonist Rex Babin will present his drawings and discuss his responsibilities to readers and the newspaper.

On March 14, professor Ayad Al-Qazzaz of the sociology department talks about the possibility of war in Iraq and its consequences. He is a specialist on the Middle East and North Africa, with an emphasis on American foreign policy in the Middle East. Kojo Yelapaala of McGeorge School of Law will examine international approaches to foreign corporate corruption when he visits the University on March 21. Yelapaala served as Ghana’s state attorney before teaching at McGeorge.

Emeritus history professor

Kathy Cairns will share information from her forthcoming book on March 28. *Women in American Journalism 1920-1950* will be published this year. Cairns will share her experiences as a reporter and an historian. On April 4, physician David Gibson will give his take on why healthcare in the United States costs as much as it does. He will look at insurance premiums and entitlement programs such as Medicaid.

Art therapist Marybeth Webster will talk with the audience during a discussion titled “Energizing and

Encouraging Peacemakers” on April 11. On April 25, former Sacramento mayor and assemblyman Phil Isenberg shares his stories about politics and his work as a lawyer.

The last forum is May 2, where humanities and religious studies professor Jeffrey Brodd discusses various religions and how they will shape the future of world peace.

# Acrobats tumble onto campus

Chinese acrobats have thrilled audiences for more than 2,700 years – and you thought *Cats* had a long run. The internationally renowned Chinese Golden Dragon Acrobats will bring this ancient form of entertainment to the California State University, Sacramento campus at 7:30 p.m. on Thursday and Friday, Feb. 27 and 28 at the University Union Ballroom.

For centuries, Chinese acrobats, dancers and magicians have entertained at imperial courts and ceremonial carnivals dating back to the Han Dynasty, making it one of the oldest continuing folk traditions in the world. The art of Chinese acrobatics is centered on a philosophy of inner strength and harmony known as Chi Kung and it began with

farm families who practiced juggling during their relatively idle winter months.

These families used whatever objects were available in their homes – cups and saucers, plates on rods, tables and chairs – whatever could be tossed, twirled or spun. They even used each other, tossing

and stacking one another to form gravity-defying human pyramids, walls and towers. They eventually added elaborate, colorful costumes made of hand-embroidered silk to enhance the spectacle.

The Chinese Golden Dragon Acrobats represent the best of this revered tradition, mixing breathtaking acrobatics, traditional dance and dazzling costumes with ancient and contemporary theatrical techniques. Their showmanship has captivated audiences in more than 65 countries around the world.

Tickets are \$12 for general admission and \$8 for CSUS students and children 12 and younger. Tickets are available at the CSUS Ticket Office at (916) 278-4323 and at [www.tickets.com](http://www.tickets.com).

CSEA, MPP and Confidential employees may donate up to 40 hours per fiscal year. Unit 4 employees may donate up to 32 hours per fiscal year. Donation forms are available in the benefits office in Sacramento Hall 259.

Details: 278-6213.

## ■ STUDENT RESEARCH COMPETITION

The 17<sup>th</sup> annual California State University Student Research Competition will be held May 2 and 3 at CSU Stanislaus. This systemwide competition will showcase research conducted by CSU undergraduate and graduate students in the full range of academic programs offered by the CSU.

The competition to select CSUS representatives for this event will be held Saturday, March 1. The guidelines are available at department offices, deans' offices and in the research and sponsored projects office.

Details: 278-7381.

## ■ EDUCATION CONFERENCE SET

The bilingual and multicultural education department is hosting the ninth annual Multicultural Education Conference from 8:30 a.m. to 4 p.m., Saturday, March 1 at the Steve Lee Yamshon Alumni Center. The daylong event is free and open to the public.

This year's theme is "Engaging in Social Action Inside the Accountability Movement." The keynote speaker is Christine E. Sleeter, a professor in the College of Professional Studies at CSU Monterey Bay. Sleeter's research and consulting focuses on anti-racist multicultural education and multicultural teacher education. She has received several awards for her work, including the National Association for Multicultural Education Research Award. Her talk begins at 9 a.m.

The conference will also feature 30 concurrent sessions highlighting educational topics related to multicultural education curriculum, bilingualism, gender equity, social class, religion, people with disabilities, sexual orientation, and other themes that impact California's diverse k-12 student populations.

The deadline for proposals is Feb. 12. For more information visit [edweb.csus.edu/departments/bmed/](http://edweb.csus.edu/departments/bmed/) 9th or call 278-5942.

## ■ SPECIAL EDUCATION LAW CONFERENCE

The department of special education, school psychology and rehabilitation will cosponsor the Reed Martin Conference from 9 a.m. to 4 p.m. Saturday and Sunday, Feb. 15 and 16 in the Union Redwood Room.

Reed Martin is an attorney with

over 33 years experience in special education law and is recognized as one of the nation's leading experts.

The conference is designed for counselors, educational psychologists, teachers, nurses, administrators and parents of children with special needs.

## ■ LOOKING AT COPYRIGHT, CHEATING

The CSUS Library will be the site for a pair of live PBS satellite events. Both will be in Library 65.

"Copyright Issues Online" will be from 11:30 a.m. to 1 p.m., Thursday, Feb. 20. A panel of experts on higher education copyright law will analyze such topics as implications of the "fair use" provision and the new TEACH Act for teaching and learning.

"Cheating and Plagiarism Using the Internet" will be from 11:30 a.m. to 1 p.m., Monday, April 3. The program will discuss the problem and offer solutions to the increase of cheating and plagiarism.

Details: 278-4045.

## ■ GET ON THE BUS

The CSUS Hornet Express is available to faculty and staff to help reduce traffic congestion on and around campus. Faculty, staff and students can ride the Hornet Express by presenting their valid CSUS OneCard upon boarding.

The shuttle runs every half hour from 6:51 a.m. to 5:21 p.m., Monday through Friday. Buses depart from the transit center at the north end of campus. Three routes service the campus and schedules can be found at the University transportation and parking webpage at [www.csus.edu/utaps](http://www.csus.edu/utaps). Schedules are also available at the information booths and at the transportation and parking office in Foley Hall.

## In memoriam

Ray Young, a retired CSUS parking officer who had a 46-year career at CSUS, died on Jan. 26. Mr. Young's career at CSUS included positions in grounds, receiving, stores, warehousing, and transportation and parking. He had a deep appreciation of campus. His work lives on in the stand of eucalyptus trees he planted along State University Drive West, as well as the trees he planted and concrete pad he poured in Alumni Grove. When he retired in 2000, a redwood tree was planted in his name in front of Foley Hall. Mr. Young's family has sent their gratitude to the campus community for all the support and kindness.

school reunion sparking passion was found to be the cause in only 6 percent of the cases. “They don’t wait for the reunion. They pick up the phone and call,” Kalish says.

But now, it would more likely be through the Internet, which for Kalish is cause for concern. “People shouldn’t treat this type of contact lightly – 80 percent of the people I hear from online are in an extramarital relationship with a lost love,” she says. “Before the Internet, contacting a lost love was much more purposeful. With the Internet it’s much more casual because it is so easy,” she says. “Someone who is bored at work might do a search for a lost love’s name, write ‘Hi, how are you?’ and have it lead to an affair.

“They aren’t necessarily looking for trouble going in. Most are just curious and want to say hello and catch up. It ends up steam-rolling over them. Internet contact is so casual that they don’t expect there will be an emotional reac-

**‘THEO’ TALKS**

Performance poet, musician, director and actor Malcolm-Jamal Warner will speak his mind and share his verse onstage in the University Union Ballroom at 7:30 p.m., Thursday, Feb. 20.

Warner, best known as Theo Huxtable in “The Cosby Show,” has appeared in a number of television series and movies, including his current starring role in Showtime’s “Jeremiah” and the former UPN series “Malcolm and Eddie.” He hosted the Emmy Award-winning “Kids Killing Kids” and was recognized with the National Association for the Advancement of Colored People’s Key Life Image Award for his work on the video “Time Out: The Truth About HIV, AIDS and YOU.” He also directed “Teen Files: Truth About Violence.”

Warner, who was named after Malcolm X and renowned jazz pianist Ahmad Jamal, showcases his own musical talent as a bass player with the jazz/funk band, Miles Long. He is also known on the spoken word circuit, combining his theater skills and poetry into performance poetry.

tion when they actually hear the person’s voice.”

And even if the couple gets back together, and stays together, there is a price to pay, she says. They discover reuniting has pluses and minuses, such as the guilt they feel for breaking up a marriage.

Kalish has bad news for those therapists who dismiss the power of a lost love relationship as a fantasy. “They don’t understand – it’s a different kind of romance. All the rules are thrown out the window,” she says.

“It happens very fast but they’re not making up their feelings. This person preceded that marriage. There’s a lot of angst – over leaving the marriage and possibly hurting their children.”

A perfect example, she says is Prince Charles and Lady Camilla Parker Bowles. “They were in love and they were kept apart. It’s not a matter of how attractive they are – it’s first love.”

study, approximately 50 percent of those who preferred Japanese rice expressed their concern about the safety of foreign rice.

Under international trade agreements, Japan does import rice—660,000 tons in 1999—but often re-exports it as food aid to impoverished nations. The United States supplies 51 percent of Japan’s imported rice, with approximately 75 percent of that coming from California growers; Thailand (19 percent), Australia (15 percent) and China (10 percent) are other major importers. consumer is sold on the market at nearly four times the government’s cost.

Referring to a 20-pound bag of koshihikari rice, a preferred type of short-grained rice, Chinen noted that a California buyer could purchase it for under \$14; the Japanese buyer would pay about \$40 for a bag of the same rice grown in Japan.

“Middle-income Japanese consumers are starting to ask why they have to pay so much more for domestic products when similar foreign products are cheaper,” Chinen said. Part of the answer is in the protectionist policies pursued by the Japa-

nese government at the urging of domestic rice growers—very similar to the political influence American agribusinesses have on U.S. policy.

“It is in the politicians’ interest and in the farmers’ interest to protect the price of rice,” Chinen said, “but that might not be best for everyone. I’m on the side of the consumer.”

Chinen said he hopes his study will open the door to a greater acceptance of California rice—which is already considered the best of the imported rice—by Japanese consumers, and eventually helping open the market.
