Outstanding Doctoral Dissertations Showcase Panel

About the Panel

Beginning in Fall 2014, an annual Fall Lecture Series will provide an opportunity for the author of a selected outstanding dissertation to present their work. This lecture series will serve to showcase the critical research being done by our graduates. This Spring panel launches the lecture series by showcasing previously selected outstanding dissertations. Each panelist will provide a synopsis of their research and how their work has been useful in the context of their career trajectory.

Featured Panelists
