1. Updates on Accreditation Reports:
   - WASC Reports are due this month. CTC Reports are due in October.
   - Clarifications of what the dean’s office needs and what each program needs to provide.

2. Presentations on Accountability Management Systems
   - This meeting is dedicated to arriving at a recommendation for a CoE Assessment Management System, then presenting that recommendation to Dean Sheared.

Based on last month’s meeting we considered Child Development’s uses SacCT for its assessment system and the teaching credential programs use TaskStream. EDC was unable to attend this meeting but that department uses Flashlight which provides the means for the department to collect data from all its assessments and generate the necessary reports.
