**Option 1:** Nearly maintains the status quo. All courses currently listed under a program remain in that program CHDV and DEAF. Courses currently listed in any of the teaching areas formerly EDTE, EDS, BMED listed under a new category working title “Service Courses”
**Option 2:** keeps required major coursework excluding GE and service courses (and possibly electives) under the umbrella of the separate major CHDV or DEAF and moves GE courses and service courses to the Service Course area.
Option 3: keeps major coursework including GE and service courses under the umbrella of the separate major CHDV or DEAF and cross lists those courses under the potpourri of Service Courses, however they remain under the curricular purview of the major.
