Note: many finding aids available through the Online Archive of California:

The best place to start is in Sacramento at the State Archives (<http://www.ss.ca.gov/archives/archives.htm>). There are strict confidentiality protections on all these records and the researcher should contact either the Department of Developmental Services (<http://www.dds.cahwnet.gov/>) or the Department of Mental Health (<http://www.dmh.cahwnet.gov/>), which both originated in the Department of Mental Hygiene.
