**OPENING DATE:** 01/23/14

**CLOSING DATE:** 01/23/15 11:59 PM

**DESCRIPTION:**

![Washington State Department of Natural Resources](image)

**Service, Science, Sustainability**

Under the leadership of the Commissioner of Public Lands, our work at the Department of Natural Resources (DNR) is done with the public’s interest in mind, which means transparency and public knowledge. Our decisions are guided by sound science as we manage state trust lands, native ecosystems and natural resources. We support the vision of a sustainable future by protecting and managing the natural resources so future generations will have them.

DNR manages over 5 million acres of state-owned land that includes forest, range, commercial, agricultural and aquatic lands. We generate revenue that supports public schools, state institutions and county services. But managing lands is only half of our story. We also protect other public resources such as fish, wildlife, water, and provide public access to outdoor recreation. Two of our largest and most important state-wide resource protection responsibilities are fire prevention and suppression, and overseeing forest practices.

The DNR has an annual operating budget of approximately $187 million and has over 1200 permanent employees with approximately 300 additional staff hired during the summer fire season.

We have some of the most talented people in the industry. We honor diversity in the workplace and support one another with respect and trust. We invite you to learn more about our culture, our careers, and why some of the top forestry and natural science professionals have joined Washington DNR by visiting our [DNR website](http://agency.governmentjobs.com/washington/job_bulletin.cfm?JobID=800242).

**Seismic Hazard Internship - Unpaid Recruitment # 2014-01-INTERN**

**OPEN UNTIL FILLED**

**Note:** It is to your advantage to submit your materials sooner rather than later.

**POSITION PROFILE:**

We are looking for interns (no salary) who are interested in getting experience in natural hazard and risk analyses. Position will involve data collection, data analyses and mapping/reporting of natural hazard/risks in Washington State. Interns will learn how to use...
GIS in natural hazard/risk assessment and will have a chance to use FEMA HAZUS-MH (Earthquake and Flood Models) software for various risk analyses cases.

REQUIRED QUALIFICATIONS:

• Students or new graduates in geology, Earth sciences, or related disciplines
• Experience in Excel

DESIABLE QUALIFICATIONS:

• ARCGIS

SPECIAL POSITION REQUIREMENTS AND WORKING CONDITIONS

• Ability to work on uneven terrain in all weather conditions.
• The incumbent in this position is required to travel.
• Must have a valid driver's license and have two years of driving experience. This position requires driving as an essential function. Employees who drive for state business, whether in a state or privately-owned vehicle, are required to possess a valid license as defined in policy PO02-006 and abide by all other driver responsibility requirements.
• Must be at least 18 years of age at the time of hire.

WHO MAY APPLY
This internship is open to anyone who meets the required qualifications for this position.

SUPPLEMENTAL INFORMATION:
APPLICATION PROCESS

• Please email the following application information to recep.cakir@dnr.wa.gov

1. Attach a Letter of Interest describing how your experience and qualifications relate to the position profile, required and desired position qualifications, and special position requirements.
2. Attach a Resume.
3. Attach the names of three to five professional references.

Questions? Please contact Recep Cakir at 360.902.1460 or e-mail at recep.cakir@dnr.wa.gov

By submitting the application materials you are indicating that all information is true and correct to the best of your knowledge. You understand that the state may verify information and that untruthful or misleading information is cause for removal from applicant pool or dismissal if employed.
