1. Q. I completed CHEM 6A and CHEM 6B at Sac State. May I use my CHEM 6A grade?
   A. Yes. Select the course with the highest grade.

2. Q. Are the following courses acceptable? Los Rios CHEM 309 or 305, Sierra 2A, San Joaquin Delta
   CHEM 3A, Solano CHEM 51 or CHEM 10, Woodland CHEM 2A, Yuba CHEM 60 or CHEM 2A, Lake
   Tahoe CHEM 100?
   A. Yes. We recommend you seek the advisement of all other nursing programs you are considering;
policies vary at each institution.

3. Q. I completed CHEM 305 and CHEM 306 at a Los Rios Community College. May I use my CHEM 305
   or CHEM 306 grade?
   A. Yes. Select the course with the highest grade.

4. Q. I completed CHEM 1A and CHEM 1B and organic chemistry. Which grade should I use?
   A. Select the course with the highest grade.

5. Q. I completed three (3) quarters of general chemistry and three (3) quarters of organic chemistry.
   Which grade should I use?
   A. Select the course/quarter with the highest grade.

6. Q. Is there a minimum unit requirement?
   A. No.

7. Q. I completed a college-level chemistry course without a lab. Do I need to complete the lab?
   A. No. We recommend you seek the advisement of all other nursing programs you are considering; policies
   vary at each institution.

8. Q. I completed a college-level, "general/inorganic" chemistry course before this announcement.
   Will it be counted as an attempt under the Repeat Policy?
   A. No. Any "general/inorganic" chemistry courses completed before Fall 2014 will not be considered an
   attempt under the Nursing Repeat Policy.

9. Q. I completed a college-level chemistry course with a “separate” lab. May I include the lab grade?
   A. Yes. Candidates may include or omit “separate” lab grade.

10. Q. May I use my organic chemistry “theory” grade and my general chemistry “lab” grade?
    A. No. Candidates may include or omit lab associated with theory only.

11. Q. I completed a course preparing me to enter a college-level chemistry course. Is it acceptable for
     the Sac State nursing program?
    A. No. We recommend you seek the advisement of all other nursing programs you are considering; policies
        vary at each institution.

12. Q. Is Sac State, CHEM 4 acceptable?
     A. No. Sac State, CHEM 4 is a preparatory course for college-level chemistry.

13. Q. Will a passing score on the AP chemistry exam satisfy the chemistry prerequisite requirement for
     the Sac State nursing program?
     A. No. You will receive GE and elective credit, but no course equivalencies,
