During your internship, you are responsible for completing and submitting **five reports**. These reports should help you learn about the overall operation of your internship agency or organization. In addition, the reports are a method of documenting and communicating to your Faculty Internship Supervisor your experiences during your internship. Faculty Internship Supervisor will not remind you of when these reports are due. Failure to submit reports on time will reflect negatively on your internship.

Each report consists of your assessment about your internship experience and information about the agency. At the beginning of your internship, please set up due dates for each of the reports. The reports are usually turned in starting the third week of the experience and then every 2-3 weeks after this, but this can be slightly modified based on the structure and format of your internship. It is your responsibility to re-adjust your schedule with your internship supervisor for the due dates of the five reports that will be spaced out evenly throughout the duration of the internship.

**Report Format:**
1. All reports are to be submitted via email. Include your name and the assignment name in the title of the document you email.
2. To earn 14-15 units for your internship, reports must be at least 5-6 pages long.
3. All your reports should begin with summary details, and then should address the topic assigned for the particular phase of your internship.

**A. Summary Details – at least one page.** (Minimum one page long, to be included with each report)
