Why PBIS ??

My Story

What is PBIS? Why is it Important?

Take 2 minutes What do you already know about PBIS?

Creating a Common Understanding

<ul style="list-style-type: none">• Positive Behavior Interventions & Supports (PBIS)• A systems approach for establishing the social culture and behavioral supports needed for a school to be an effective learning environment for all students.	<ul style="list-style-type: none">• Multi-tier Systems of Supports (MTSS)• MTSS is a coherent continuum of evidence based, system-wide practices to support a rapid response to student needs, with frequent data-based monitoring to inform decision-making and empower each student to achieve their potential.

Experimental Research on SWPBIS

SWPBIS Experimentally Related to:

1. Reduction in **problem behavior**
2. **Increased academic performance**
3. **Increased attendance**
4. **Improved perception of safety**
5. **Reduction in bullying behaviors**
6. **Improved organizational efficiency**
7. **Reduction in staff turnover**
8. **Increased perception of teacher efficacy**
9. **Improved Social Emotional competence**

 - MTSS – Grant Development – (CA SUMS)
 - Proposition 47 Grant Development
 - Mental Health Service Act - Funding

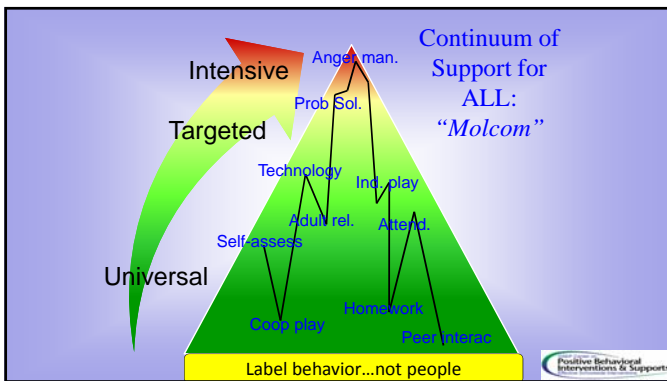

2018 California PBIS Conference Sessions		
Title of Presentation	Name of Presenter	Brief Description
<i>Sustainability - What Does It Take to Sustain PBIS?</i>	Welcome/ Keynote Dr. Kent McIntosh, Professor in the Department of Special Education and Clinical Sciences at the University of Oregon and Director of Educational and Community Supports, a research unit in the College of Education.	Why does it seem so hard to sustain school initiatives? When initial grant funding ends and champions move on, how do we keep systems like PBIS strong in our buildings? This talk will provide the latest research findings and practical strategies to overcome common barriers to sustaining effective school initiatives.
<i>Integrating Mental Health Within a School-Wide System of PBIS: Systems Practices, Data</i>	Welcome/ Keynote Susan Barrett, Director of the Mid-Atlantic PBIS Network at Sheppard Pratt Health System in Baltimore Maryland.	This session will describe how to expand the continuum of multi-tiered interventions within schools to ensure a comprehensive system of social emotional behavioral health supports using the Interconnected Systems Framework including key features, tools, and examples.

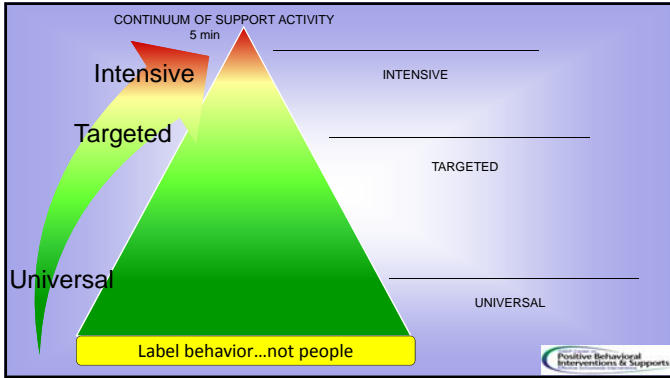

<i>Mitigating and Monitoring Disproportionality in School Discipline: Strategies for Equitable Outcomes</i>	Bert Dixon - University of Oregon	We will use a four-step problem-solving process including common metrics and tools schools can use to measure, monitor, investigate, and address situations when disproportionality in school discipline occurs. Additional information will be shared on vulnerable decision points and the impact of implicit bias on disproportionality.
<i>Strengthening your Tier II Implementation: Some Fidelity Measures to Promote Growth in Tier II Implementation</i>	Celeste Rossetto Dickey - University of Oregon	Fidelity is asking the question, "Are we implementing Tier II with integrity?" Participants will be provided with various Tier II Fidelity assessments, and be guided in using the data for decision-making, as well as participate in a "mock" Tier II meeting.
<i>Tier II Outcome Data: Using Check-In Check-Out Data to Run Effective & Effective Meetings</i>	Celeste Rossetto Dickey - University of Oregon	Many schools use Check-In Check-Out as a Tier II intervention. This session will provide participants with hands-on activities by demonstrating how to use CICO-SWS data to drill down, prepare data summaries and participate in a Tier II meeting.
<i>From Classroom Interactions to Disproportionate Outcomes: Addressing Inequity through SW-PBIS</i>	Chris Borgmeier - Portland State University	This presentation examines how implicit bias and teacher expectations influence classroom interactions that contribute to disproportionate outcomes and inequitable school experiences for students. SW-PBIS will be presented as a framework for supporting staff to reduce disproportionate outcomes and improve school experiences for all students.

<p><u>The integration of PBIS, MTSS and Restorative Practices on a School Campus</u></p>	<p>Katie Knifton - San Juan Unified School District/ Sylvan Middle School</p> <p>Co-presenter: Rebecca Duditch</p>	<p>This presentation will focus on the integration of PBIS, MTSS and Restorative Practices at a Title 1 middle school campus. Examples of how staff can work together with a multi-disciplinary team to ensure student and family success. We will discuss practical strategies for behavior prevention, alternative discipline and intervention as well as referrals to support Tier 2 and Tier 3 students. Practical examples of Behavior Contract implementation will be reviewed.</p>
------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

MTSS Components

1. Multiple Tiers of Intervention and Support for social, emotional, behavioral, academic needs
2. Team based problem solving
3. Evidenced based curricula and practices
4. Use of data for decision making and progress monitoring
5. Universal screening
6. Use of fidelity and capacity assessments

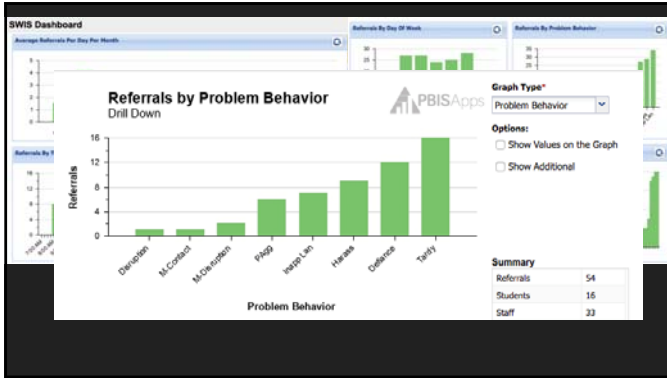

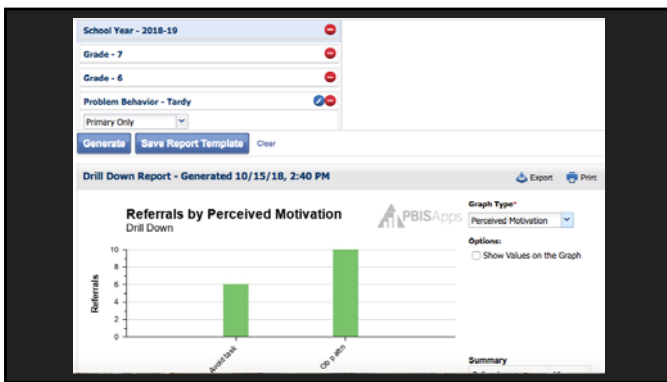

Two Kinds of Data

1. Outcome data
2. Fidelity data

SWIS

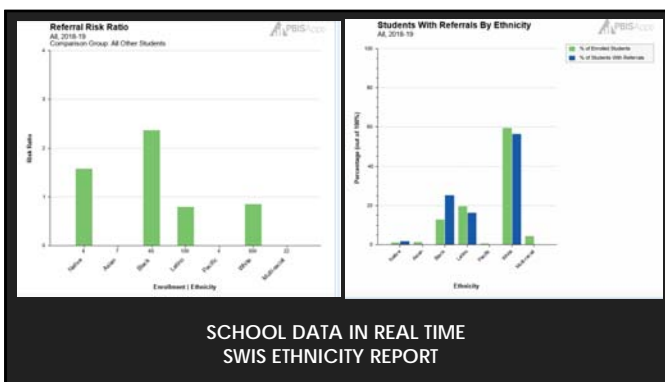

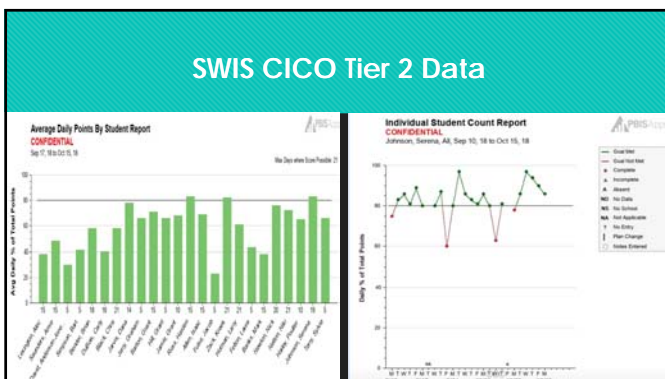

Team builds a precision statement

During the first 3 months of school, during lunch and morning break, there are a number of 6th and 7th grade students (20) who have been tardy to class in order to obtain peer attention (escape task less likely motivation).

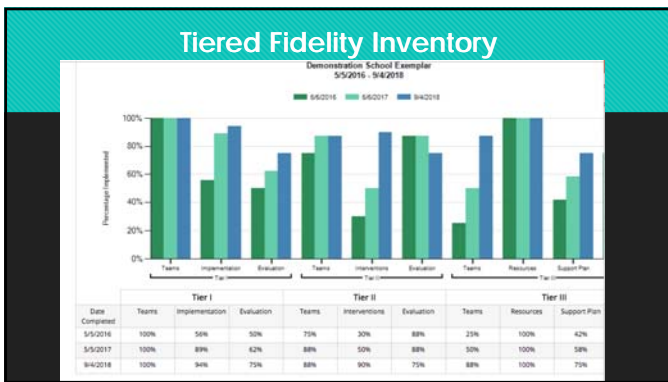

District Data vs. School/Classroom Data

All Students	42,579	High	Maintained
English Learners	4,051	Medium	Declined
Former Youth	460	Very High	Increased
Homeless	2,492	Very High	Declined
Students with Disabilities	23,042	Very High	Maintained
Students with Disabilities	5,494	Very High	Declined
African American	3,381	Very High	Increased
American Indian	355	Very High	Declined
Asian	2,872	Medium	Increased
Hispanic	437	Low	Declined
Hispanic	9,809	High	Maintained
Pacific Islander	341	High	Maintained
Two or More Races	1,927	Very High	Increased
White	23,614	High	Maintained

Universal (school-wide) behavioral screening :

- Addresses prevalence of emotional/behavior problems among school-age children ranges between 9%-13% (Tier 2 & 3 Students)
- Provides a valid and reliable approach for identifying student behavioral issues
 - Externalizing and Internalizing students are identified
- Highlights schools as an ideal environment for addressing mental health-related issues
 - "Less stigmatizing" than clinics
 - Potential to reach large groups of youth and families
 - Successfully identify kids with internalizing behaviors

(Rose, Owens, PBIS Network)

Universal Screening: Selection Criteria

- Usability/practicality:

- **Cost-effective**
 - Does not require specialized training to administer or evaluate results
 - Does not interfere with instructional time or other required tasks
- **Efficient**
 - For example, identifies students who are withdrawn (**internalizers**) as well as those who act out (**externalizers**)
 - Can be completed quickly
- **Informs interventions**
 - Results can be used to identify appropriate interventions
 - Aids in improving student outcomes

Universal Screening: Sample of Evidence-Based Screening Instruments

Screener	Pros	Cons
Systematic Screening for Behavior Disorders (SSBD; Walker & Severson, 1990). http://store.cambridgelearning.com	<ul style="list-style-type: none"> • Well-validated (Endorsed in 1990 by the Program Effectiveness Panel of the U.S. Department of Education) • Efficient (Screening process can be completed within 45 minutes to 1 hour) • Most effective instrument for identifying internalizers (Lane et al., 2009) • Meets AERA/APA instrument selection criteria • Inexpensive (Manual- \$ 134.49; includes reproducible screening forms) 	<ul style="list-style-type: none"> • Normed for grades 1-6 • Dated norms (normed in 1990) • Normative sample skewed to western U.S. region
BASC 2/RESS (Kamphaus & Reynolds, 2007) http://www.pearsonassessments.com	<ul style="list-style-type: none"> • Measures behaviors associated with internalizing and externalizing problem behaviors and academic competence • Meets AERA/APA instrument selection criteria • Incorporates three validity measures: to rule out response bias • Utilizes large (N= 12,350 children & youth), nationally representative sample • Web-based screening capacity available via AIMSweb 	<ul style="list-style-type: none"> • Can be expensive for districts/schools that don't have access to a scanner machine • \$20.25 for 25 hand-scored protocols • Online access via AIMSweb: Additional \$1.00 per student for subscribers and \$4.00 per student for non-subscribers • Hand-scoring is time-consuming and reduces access to validity measures • Computer software is expensive (\$620)

Universal Screening: Sample of Evidence-Based Screening Instruments

Screener	Pros	Cons
Strengths and Difficulties Questionnaire (SDQ; Goodman, 2001) http://www.sdqinfo.org	<ul style="list-style-type: none"> • Measures internalizing/externalizing behaviors • Free • Option of completing pencil and paper, or online version • Can be scored online • Technically sound: Large, representative normative group 	<ul style="list-style-type: none"> • Perceived length of administration time • Items skewed toward externalizing behaviors
Student Risk Screening Scale (SRSS; Drummond, 1993)	<ul style="list-style-type: none"> • Measures internalizing/externalizing behaviors • Free • Quick to administer (less than 5 minutes per student; 15 minutes for entire class, depending upon number of students) • Easy to understand and interpret score results • Technically adequate 	<ul style="list-style-type: none"> • Not as accurate as the SSBD regarding identification of internalizers
Social Skills Improvement System (SSIS; Gresham & Elliott, 2008) http://proctorcorp.com/assessments.cfm http://ca.cahome.com	<ul style="list-style-type: none"> • Measures problem behaviors, social and academic competence • Computer and web-based (AIMSweb) administration and scoring available 	<ul style="list-style-type: none"> • Expensive: Technical manual-\$109.99; Rating forms-\$43.75 for package of 25 hand-scored forms; scoring software- \$270.00; Scanning software- \$640 • Can be time-consuming: It takes 10-25 minutes per student to complete the screening instrument

Ask the Families!

Parent Screener for **ALL** students transitioning to Middle school

School Readiness Check-In
Welcome to the new school year!
We're checking in with you to learn about your student's strengths and needs for support at school. By answering these questions, you can help us start the year off right!

Please rate your student in the following areas	Being Great 5	Some Concerns 4	Serious Concerns 3	Need Support? 2
Communicating with adults				<input type="checkbox"/>
Behaving well at school				<input type="checkbox"/>
Getting excited that are opportunities for his/her skills				<input type="checkbox"/>
Having good relationships with other students				<input type="checkbox"/>
Following classroom rules				<input type="checkbox"/>
Finishing and turning in work on time				<input type="checkbox"/>
Completing homework and assignments on time				<input type="checkbox"/>
Showing up on time to school or other activities				<input type="checkbox"/>
Avoiding tasks that seem difficult or challenging				<input type="checkbox"/>
Spending time with students who break school rules				<input type="checkbox"/>
Getting disciplined, corrected, or punished				<input type="checkbox"/>
Getting easily distracted by other kids				<input type="checkbox"/>
Handling criticism and corrections to see on task and behave well				<input type="checkbox"/>
Liking attending school				<input type="checkbox"/>

Missoula, MT

UNIVERSAL SCREENING FOR SCHOOLS

A Multiple Gating System

- Step 1 Teacher Nomination** (with criteria)
- Step 2 Short Screener** (internalizing or externalizing)
- Step 3 Team uses other** (attendance, grades, ODR's) data sources
- Step 4 Students Rated** (most to least at-risk)
- Step 5 Parents notified before Tier 2 Interventions**

UNIVERSAL SCREENING TOOL FOR CLASSROOM TEACHERS

INDICATORS OF EXTERNALIZING SYMPTOMS OF BEHAVIOR	INDICATORS OF INTERNALIZING SYMPTOMS OF BEHAVIOR
Disruptive aggression towards others or property	Low or non-existent activity levels
Targing or setting the teacher	Absence of speaking "whistles"
Lacking the ability to get along	Low level of social interaction
Not following classroom rules	Absence or withdrawal from social situations
Non-compliance with teacher instructions or demands	A preference to play or participate alone
Threats	Acting as a "lone ranger"
Inappropriate behavior	Avoiding participation in games and activities
Inappropriate behavior	Complaining or making excuses to get away
Inattention	Failure to read or do homework
Not following teacher or behavior rules	
INDICATORS OF EXTERNALIZING SYMPTOMS OF BEHAVIOR	INDICATORS OF INTERNALIZING SYMPTOMS OF BEHAVIOR
Cooperating	Isolation of social interactions with peers
Sharing	Engagement in conversations with peers
Following classroom rules	Complaints about or withdrawal from peers
Following help suggestions	Withdrawal from social situations (social withdrawal)
Listening to teacher	Participating in games and activities
Following classroom rules	Receiving peer conflict or aggression (victim)
Following directions	Acting in social stress
Following classroom rules	
Following classroom rules	
TYPICAL ANSWERS	
1- INTERNALIZING STUDENTS	1- INTERNALIZING STUDENTS
2-	2+
3-	3+

Rating Scale for Externalizing Students

Teacher Name: _____ Date: _____

Directions: Please rate each student on each behavior using the following scale:
0 = Never, 1 = Rarely, 2 = Occasionally, 3 = Frequently

Student Name	Writing	Math	Reading	Behavior	Attendance	Compliance	Focus	Task

Rating Scale for Internalizing Students

Teacher Name: _____ Date: _____

Directions: Please rate each student on each behavior using the following scale:
0 = Never, 1 = Rarely, 2 = Occasionally, 3 = Frequently

Student Name	Worries	Social Skills	Self-Confidence	Self-Esteem	Self-Regulation	Self-Motivation	Self-Expression	Self-Reflection

Student Name	SSRS	SSRS-2	Academic Achievement	ESR Risk	Attendance	Grade	Teacher

Teacher Interventions by Risk Factor

Risk Factor	Intervention	Frequency/Duration	Notes
Externalizing (ESS)	Check/Check-out, Praise/Restatement, Self-Reflection, Social Skills Instruction	SWIS (Daily Behavior Report Card, daily graph/briefcase)	
Internalizing (ISS)	Self-Reflection, Self-Expression, Self-Motivation	SWIS	
Academic (AS)	Self-Regulation, Self-Motivation, Self-Reflection	SWIS/SSRS	
Attendance (A)	Parental Monitoring, Self-Motivation, Self-Reflection, Self-Expression, Self-Motivation	Weekly Monitoring, Self-Motivation/Expression (Briefcase)	

Encina Grade 6

Spring	Math Score	Reading Score	Writing Score	Academic Proficiency	ESR Category	Attendance
6-13 (490-500)	500-510	500-510	500-510	85-90%	ESR 1	90-95%
6-12 (480-490)	480-490	480-490	480-490	80-85%	ESR 2	85-90%
6-11 (460-480)	460-480	460-480	460-480	75-80%	ESR 3	80-85%

What's the Function ?

New Directions for PBIS
Including EBP's under the Umbrella

Peer Mentoring
as a Tier 2 Practice

JIM WOOD, PBIS FACILITATOR
LUKE ANDERSON, SCHOOL PSYCHOLOGIST
SAN JUAN UNIFIED SCHOOL DISTRICT

Review of Tier 2 Foundations

- Continuous Availability to Students
- Rapid Access to mentoring (within 7 days)
- Low effort by teachers with maximum benefit to students
- Consistent with school wide expectations
- Implemented uniformly by staff (Staff know their roles)
- Support of Tier 2 team and Administrators
- Student voluntarily participates
- Mentoring fits the culture of the school (socially valid)
- Continuous monitoring of the students involved

What Can be Achieved?

For mentees, these programs have shown a positive impact on:

- Connectedness to school and peers
- Feelings of competency and self-efficacy
- Grades and academic achievement
- Prosocial behavior and attitudes

What Can be Achieved?

For mentors, there have been reported improvements in...

- Connectedness to school
- Self-esteem
- Empathy and moral reasoning
- Intrapersonal communication and conflict resolution skills
- Relationships with parents

Common Practices

- High school students mentoring middle or elementary students
- Older elementary students mentoring younger students
 - Rule of thumb- At least a 2 grade difference

Cross age peer mentoring

- Must be structured and organized
- Meet for 10 or more times
- At least a 2 year age span
- Do not focus primarily on deficits or problems

Important Notes

- Screen Well for Mentors (Beware of Deviancy Training?)
- Regular and frequent monitoring built in
- Mentors need help with structuring activities
- Training for both mentors and mentees
- Parent permission slips for mentors and mentees

Responsibilities and Roles

- Principal- Must support
- Teachers- Refer mentors and or mentees, provide space or supplies, report on outcomes
- Site coordinator- Most important player (recruits, trains, outcome data, helps to keep it going)- Dual Coordinators ?

Turn and talk: At your school, how would roles be decided upon, and responsibilities be determined ?

Recruiting/Screening for Mentees

- Use a set of criteria (socially withdrawn, academic deficits, not connected to adults)
- Use parents in your recruitment of mentees
- Emphasize the benefits to mentees and parents
 - Newsletters, New student packets, parent nights, website

1. What do you think would be the best way to recruit mentors?
2. What screening process would you use to choose mentees?

Data/Feedback from Participants

- PRE/POST/WEEKLY Questionnaire for Mentors
- Questionnaire for Teachers
- Questionnaire for Parents
- Attendance/grades/SWIS data/

Culminating Activity Using your handouts and resources

- Fill out the Mentoring Self Assessment (1 per team)

MENTORING Element	In Place	In Progress	Not in Place
Family and Staff Commitment for MENTORING			
Responsibilities and Roles defined (see below)			X
Coordinators			
School Administration			
Teachers trained on roles for mentoring			X

- For all elements that are rated as "in progress", or "not in place", complete the attached action planning steps.

Helping Children Cope with Violence and Trauma

A School-Based Program That Works

Violence is one of our most significant public health issues. Between 20 percent and 50 percent of children in the United States are shocked by violence, either as victims or, even more commonly, as witnesses. Even more are exposed to natural disasters, accidents, and traumatic losses. The emotional impact may be profound. Children exposed to violence frequently develop post-traumatic stress symptoms. They are more likely to have behavioral problems, poorer school performance, more days of school absence, and feelings of depression and anxiety. Violence affects all racial, ethnic, and economic groups, but its burden falls disproportionately on poor and minority children—the very children whose mental health needs are least likely to be met by the health care system. School officials are often willing to provide help at school. But these professionals face an important question: What works? Until recently, there was no evidence base for determining the effectiveness of interventions to address these problems.

To fill this gap, a team of clinician-researchers

Key Findings:

- Cognitive-behavioral intervention for Trauma in Schools (CBIT) significantly reduced symptoms of post-traumatic stress and depression in students exposed to violence.
- School mental health clinicians successfully delivered the program.
- The program produced consistent results and was well accepted by students, parents, and teachers.
- A version of the intervention has been adapted for delivery by regular school staff with no mental health training.
- A new website that provides online training and support for mental health professionals to deliver CBIT is now available. See it at: <http://cbitsprogram.org>

RENEW Indicators

- Social Emotional Concerns (Emotional Disturbance or On this Track)
- Mental Health Concerns
- Risk of Drop Out
- Poor Academics (Low to NO Credits; Credit Recovery)
- Lack of community and social supports
- High Rates of:
 - Trauma
 - Arrests
 - Suspensions
 - Substance Abuse
 - Transition

RENEW Maps

- Use graphics and words
- Use flip chart paper
- Engaging for participants

The Purposes of Futures Planning

- Use "Maps" to create a meaningful, personalized, individualized plan
- Identify supports at home, school, and in the community
- Assist the youth to build self determination skills

Planning Next Steps

1. Youth prioritizes goals
2. Brainstorm next steps for each goal prioritized
3. Youth chooses which steps they want to do first (which makes the most sense)
4. Identify supports the youth has to/can connect to
5. Youth and facilitator develop team to identify criteria for success around each goal and resources needed

RENEW Youth Team Action Plan
Example

Student: Dan Johns
Date: 4/11/2009

Grade Level: 10th
Long-Term Goal: Graduate from High School and attend college

Short-Term Goal # 1: I would like to learn more about Criminal Justice Courses

Before Christmas Break of 2009

When Do I Want This Completed?	What Resources, Materials, or Support Do I Need?	Person Responsible	Target Date	Status	Comments
	College research Contact research - www.collegeboard.com		11/20/09	Completed	
	Conduct 2 informational interviews Help from my network to learn someone in the field of Criminal Justice and My Informational Interview Questions		11/20/09	In progress (1 completed)	Writing to her back from Officer Smith as it per schedule on interview
	Ask Shadow/mentor EJC/JCJ Coordinator and/or my Guidance Counselor My network to help me find a Shadow to interview and Shadowing		By 12/10/09	Will do Semester 2	Want to only do Semester 1 schedule

RENEW Facilitator's Manual Tools

RENEW READINESS CHECKLIST
(October 2012)

This checklist is designed to assess the readiness or state of organizational support in a school district, school, or community based agency to implement the RENEW model. This checklist can be used by an organization itself to identify critical action steps that should be addressed to ensure the proper installation and implementation of the RENEW model. Once a school or agency has been implementing RENEW, this checklist should be completed annually to identify areas of strength and factors that still need to be addressed. This checklist should be completed by a team of administrators, the agency school RENEW Coach, and the external RENEW Trainer.

School or Agency: _____ Date: _____

Individuals Completing this Form: _____

CURRENT LEVEL OF IMPLEMENTATION:	Topic/Question	PRIORITY		
		High	Medium	Low
<input type="checkbox"/> In Place <input type="checkbox"/> Partially In Place <input type="checkbox"/> Not In Place	1. The school or agency administration supports the implementation of developmentally appropriate evidence based practices <u>specific to all youth</u> .			
	2. The school agency's procedures for provision of flexible services are relevant for services of all youth.			
	3. A community process was used to identify youth who need individualized planning and supports in the youth who did not respond positively to other interventions.			
	4. There is a team in the school or agency that monitors, supports,			

RENEW Systems Readiness Checklist 5/12/12 3

RENEW Implementation Action Plan

Choose three items in Checklist that are marked "High Priority" or "Not in Place" and develop action steps for these items.

Serious Training Model

RENEW Training & Consultation System

RENEW Overview (In Person, Online, or Phone Consultation)

The University of New Hampshire RENEW staff can provide a presentation of the RENEW model's features, goals, strategies, activities required to implement the RENEW model, and research data that supports the model. The length and depth of the presentation can be tailored to your agency's or school's preferences and needs. The content for this line of presentation can include, but not be limited to the following:

- Formal Lectures or Workshops
- Experiential Learning with Modeling/Role Play
- Youth Case Studies
- Hands-on Demonstrations
- Video and Discussion
- Supporting Youth with Instructional Materials
- Challenges
- RENEW Model Graduate Presentations
- RENEW Implementation in Homes, Schools, and State Organizations
- Using RENEW to build collaboration between Mental Health Agencies and Schools (RENEW an Interdisciplinary Strategy Presentation)
- RENEW Success and Failures

The level of training system awareness and is not enough through for attendees to use the RENEW model.

"Change the way you look at things and the things you look at will change."

Restorative Practices and PBIS

Adoption-fest!

- Chicago
- Denver
- Philadelphia
- San Francisco
- Oakland
- Many more!

Jessica Swain-Bradway, Midwest PBIS Network ;
 Jill Mathews-Johnson, ACTIONS Administrator
 Champaign School District, IL

RP in Schools, Concerns

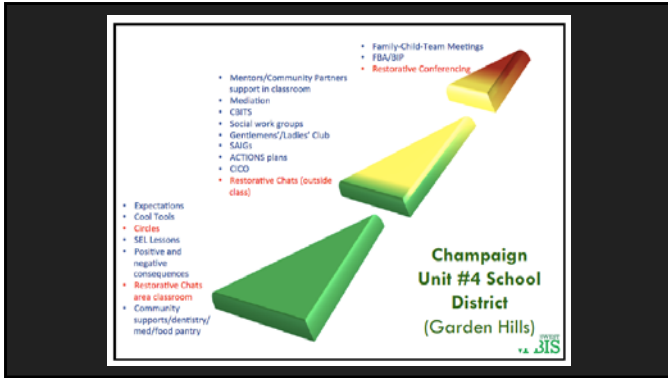

- Lacking scientific evidence – *In process through IIRP*
- Most typical research we have is:
 - Descriptive
 - Quasi-experimental
 - Experimental
- Non-replicable curriculum / model
- Lacking validated fidelity measures

Jessica Swain-Bradway, Midwest PBIS Network ;
 Jill Mathews-Johnson, ACTIONS Administrator
 Champaign School District, IL

Why Install within SWPBIS?

- SWPBIS has a strong evidence base
- Systems and data features push us to:
 - Define what we are doing so we can replicate in all settings, with all students
 - Assess HOW we are conducting a given practice
 - Assess how students are responding
 - Modify intensity and specificity based on student progress
- We can use the SWPBIS features to guide installation of RP
- We STILL want to define RP clearly, with input from the experts and practitioners

Journal of Positive Behavior Interventions
(in press)

Improving Multi-Tiered Systems of Support for Students with "Internalizing" Emotional/Behavioral Problems

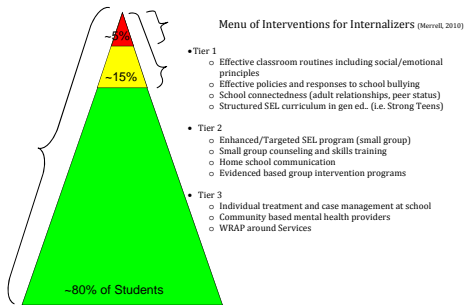

Mark D. Weist, Lucille Eber, Robert Horner, Joni Splett, Robert Putnam, Susan Barrett, Kelly Perales, Amanda J. Fairchild, and Sharon Hoover

Challenges to focus on Internalizing problems

- Less visible problems less likely to be focused on generally and especially in the very busy environment of schools
- Lack of Tier 1 examples
- Staff generally not trained or supported for effective identification and intervention with these youth

“Internalizing” Problems

- Depression
- Anxiety
- Fears/ phobias
- Trauma symptoms

Joni Splett et al. (under review)

- Comparison of universal screening to traditional school identification
- 3744 students (from larger study funded by NIJ)
- 72% neither screener or school identified
- 18.4% screener only identified
- 3.7% school only identified (6.4% identified by both)
- **180% greater rate of identification with screener**

Tier II/III Supports

Demystify Interventions

- Teams and staff are explicit about types of interventions students and youth receive
 - e.g. from “student receives counseling” to “student receives 10 coping skills group sessions
- Skills acquired during sessions are supported by ALL staff
 - e.g. staff are aware that student is working on developing coping skills and provides prompts, pre-corrects, acknowledges across school day

Tier II/III Supports

Connect Interventions back to the Core curriculum

- Skills acquired during sessions are supported by ALL staff
 - e.g. staff are aware that student is working on developing coping skills and provides prompts, pre-corrects, acknowledges across school day

Data-based problem solving

Progress monitoring data are necessary to answer important questions:

- Is the student making progress towards the goal?
- Is the intervention effective for most of the students receiving the intervention?

"Tier 3 Plan with Trauma-Informed Strategy"
Daily Progress Report (DPR) Sample

NAME: _____ DATE: _____
 Teachers please indicate YES (Y), SO-SO (S), or NO (N) regarding the student's achievement in relation to the following sets of expectations/behaviors.

EXPECTATIONS	1 st block	2 nd block	3 rd block	4 th block
Be Safe SOS (Slow down, orient, self-check) Use mindfulness	2 1 0	2 1 0	2 1 0	2 1 0
Be Respectful Distract & Self-Soothe Let 'M Go	2 1 0	2 1 0	2 1 0	2 1 0
Be Responsible Make A Link Make Meaning	2 1 0	2 1 0	2 1 0	2 1 0
Total Points				
Teacher Initials

How?... The Same Process for teaching Social Emotional Behavior as used for academics

School 1

		INCORPORATE Coping Strategies for Managing Stress						
Teaching Matrix		All Settings	Halls	Playgrounds	Lunch	Library/Computer	Assembly	Bus
Expectations	Respect	Be kind. Handshake to self. Help/share with others.	Walk. Have a plan.	Share equipment. Include others.	Use headphones sitting alone to give ear.	Use headphones sitting alone to give ear.	Use headphones sitting alone to give ear.	Use headphones sitting alone to give ear.
	Achieving & Organized	Use normal voice volume. Walk to right.	Share equipment. Include others.	Share equipment. Include others.	Have a lunch plan and either quiet or social lunch time.	Whisper. Return books.	Listen/watch. Use appropriate app/tech.	Use a quiet voice. Stay in your seat.
	Responsible	Use equipment properly. Put items in garbage can.	Use equipment properly. Put items in garbage can.	Use equipment properly. Put items in garbage can.	Use equipment properly. Put items in garbage can.	Use equipment properly. Put items in garbage can.	Push in chairs. Treat books carefully.	Pick up. Treat chairs carefully. Wipe your feet.

1. Expectations (points to Respect row)

2. NATURAL CONTEXT (Locations) (points to Assembly/Bus columns)

3. Rules AND SEB Skills (points to Responsible row)

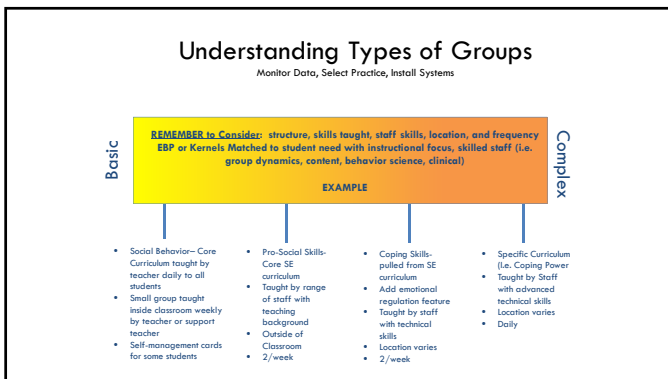

For other schools, may be a social media concern....
