Chapter 2 The Role of Money in the Macroeconomy
I. Introducing Money
   A. Who determines our money supply?
   B. The importance of money: money versus barter
   C. The importance of money: financial institutions and markets
II. Money, the Economy, and Inflation
   A. Bank reserves and the money supply
   B. How large should the money supply be?
   C. Money and Inflation

Ch 3 Financial Instruments, Markets, and Institutions
I. Flow of Funds
II. Financial Instruments and Markets
   A. Bonds represent borrowing
   B. Stocks represent ownership
   C. Mortgages involve real estate
   D. Derivatives: options and futures
   E. The money and capital markets: a summary
III. Financial Intermediaries: Purposes and Profile
   A. The role of financial intermediaries
   B. Financial intermediaries in profile

Ch 4 Interest Rate Measurement and Behavior
I. Calculating Interest Rates
   A. Simple Interest
   B. Compound Interest
   C. Coupon rate on bonds
   D. Current yield
   E. Yield to maturity
   F. Zero-coupon bonds
   G. The inverse relationship between yields and bond prices
   H. Why long-term bonds are riskier than shorts
   I. Nominal versus real interest rates
   J. Return versus yield to maturity
II. What determines the Level of Interest Rates?
   A. Supply and demand determine the interest
   B. Why does the interest rate fluctuate?
   C. Behind supply and demand
   D. The importance of inflationary expectations
   E. Cyclical and long-term trends in interest rates

Ch 5 The Risk and Term Structure of Interest Rates
I. The Term Structure of Rates and the Yield Curve
   A. Supply and Demand
   B. The pure expectations approach
   C. The liquidity premium modification
   D. The preferred habitat approach
   E. Real world observations
   F. An aside on marketability
II. Risk and Tax Structure of Interest Rates

Ch 6 The Structure and Performance of Securities Markets
I. The Nature and Function of Securities Markets
   A. Auction Market
   B. Brokered Market
   C. Dealer Market
   D. Primary versus secondary markets
II. Efficiency and Secondary Market Trading
III. Efficient Capital Markets and Regulation

Ch 8 Money and Capital Markets
I. The Government Bond Market
   A. Types of securities and investors
   B. How the market works
   C. Treasury bills: auctions and yields
   D. Repurchase agreements
II. Bank-related Securities
III. Corporate Securities
   A. Corporate Bonds
   B. Commercial Paper
IV. Municipal Securities
V. Mortgage Securities
VI. The Stock Market
   A. The structure of the stock market
   B. What determines whether stock prices rise or fall?
   C. Money and stock prices

Ch 10 Understanding Foreign Exchange
I. What Determines Foreign Exchange?
   A. Why do exchange rates fluctuate?
   B. How global investors cause exchange rate volatility
II. Fixed Versus Floating Exchange Rates
   A. How fixes exchange rates are supposed to work
   B. International financial crises
Ch 11  The Nature of Financial Intermediation
I.  The Economics of Financial Intermediation
II.  The Evolution of Financial Intermediaries in the United States
    A.  The shifting sands of interest rates
    B.  The Regulation Q security blanket
    C.  The birth of the money market mutual fund
    D.  The savings and loan crisis
    E.  The rise of commercial paper
    F.  The institutionalization of financial markets
    G.  The transformation of traditional banking
III.  Financial Intermediaries:  Assets, Liabilities, and Management

Ch 12  Depository Financial Institutions
I.  The Fundamentals of Bank Management
    A.  Uses of bank funds
    B.  Sources of bank funds
    C.  Bank risk
        1.  Leverage risk
        2.  Credit risk
        3.  Interest rate risk
        4.  Trading risk
        5.  Liquidity risk
II.  Major Trends in Bank Management
    A.  The consolidation of the banking industry
        1.  The McFadden Act
        2.  The erosion of the McFadden Act
        3.  Measuring consolidation
        4.  The economics of consolidation
    B.  Nontraditional Banking
    C.  Globalization
        1.  American banks abroad
        2.  Foreign banks in the United States
        3.  The Euromarkets

Ch 14  Understanding Financial Contracts (highlights)
I.  How Business Obtains Financing
    A.  Small business
    B.  Midsize business
    C.  Large business

Ch 17  Who’s in Charge Here?
I. The Formal Structure of the Federal Reserve System (FRS)
II. The Realities of Power
III. The Problem of Federal Reserve Independence

Ch 18 Bank Reserves and the Money Supply
I. Check Clearing and Collection
II. Deposit Expansion: The Single Bank
III. Deposit Expansion: The Banking System
IV. Deposit Contraction

Ch 19 The Instruments of Central Banking
I. Reserve Requirements
II. Discounting and the Discount Rate
   A. The discount rate and market interest rates
III. Open Market Operations

Ch 20 Understanding Movements in Bank Reserves
I. The Fed’s Balance Sheet
II. The U.S. Treasury’s Monetary Accounts
III. The Bank Reserve Equation
IV. Putting It All to Use
V. Focusing on the Monetary Base

Ch 21 Monetary Policy Strategy
I. The FOMC Directive
II. The Fed’s Strategy
   A. Reserves versus the federal funds rate
   B. Linking reserves and the monetary aggregates
   C. How useful are the monetary aggregates?
III. The Fed’s Track Record

Ch 22 The Classical Foundations
I. Say’s Law
II. Classical Interest Theory
III. The Quantity Theory of Money
   A. The Cambridge Approach
IV. Money Demand and the Quantity Theory
V. Aggregate Demand and Supply: A Summary
VI. Real Versus Nominal Rate of Interest
VII. Modern Modifications: Monetarists and New Classicists

Ch 23 The Keynesian Framework
I. When Saving Doesn’t Equal Investment
II. Consumption and Simple GDP Determination
III. Changes in GDP
IV. Autonomous Versus Induced Changes in GDP
   A. Exports and imports
V. Government to the Rescue
VI. Money and the Rate of Interest
VII. Monetary Policy
   A. Monetary policy and international trade
   B. Transactions demand and monetary policy
   C. Expectations and monetary policy
   D. Aggregate demand and supply

Ch 24 The IS-LM World
I. Money, Interest, and Income
II. All About LM
   A. Monetary Policy and the LM Curve
III. The Goods Market
IV. All About IS
V. The Simultaneous Determination of Income and Interest Rate: IS & LM Together
VI. Monetary and Fiscal Policy
   A. Monetary Policy
   B. Fiscal Policy
VII. Keynes and the Classics
VIII. When Will Full Employment Prevail?
IX. IS-LM and Aggregate Demand

Consumer Protection Regulation
II. Fair Housing Act (1968)
III. Home Mortgage Disclosure Act (1975)
IV. Community Reinvestment Act (1977)
   A. Community Development Banks (CDB)
V. Community Development Banking and Financial Institutions Act (1994)

Check-Cashing Outlets
I. Services Provided
II. Fees Charged
III. Structure of the Industry
IV. Growth and Location of CCO’s
   A. Comparing Banks and CCO’s
   B. Who uses CCO’s?
C. Why are CCO’s growing?

V. Public Policy Issues
   A. Regulation of CCO’s
   B. Role of CCO’s in the Financial System

Pawnshops
I. Overview of Pawnbrokering
   A. Why do they exist?
   B. Pawnshop customers
   C. Pawnshops in consumer credit markets
   D. Trends in pawnbrokering

II. Business of Pawnbrokering
    A. Regulatory environment
    B. Characteristics of lending
    C. Geographic distribution
    D. Long run growth in Pawnshops
    E. Growth of Pawnshops in 1980s

III. Policy Implications

Micro- and Small-Enterprise (MSE) and Micro-Finance Institutions
I. What Are MSE’s?
II. Role of MSE?
III. What is Micro-Finance?
    A. How is credit extended?
    B. Grameen Bank of Bangladesh
    C. Measuring success
