Writing Prompt #4
Due Wednesday, May 12th at 12:00pm

In a well-crafted, 2 page, double-spaced essay (i.e., one with an introduction and conclusion), please address the following question(s). References to specific passages of original source material may be used to strengthen your argument; however, please be sure to cite them appropriately. Any citation style you choose is fine.

Your essay will be graded for grammar, style, and clarity; therefore, a poorly written essay will receive lower points than one with the same argument that is well-written. Please remember that I am happy to assist you with your writing skills by giving you feedback before the essay is due.

How would Veblen respond to the argument that the market directs self-interest toward societal interest?
