Take-Home Essay Option for Exam #1

You may choose any one of the three question on the Bainton book to write a take-home essay instead of writing one in class; you will turn it into the instructor at the beginning of the exam.

The essay should address the question; it should be 2-3 pages long (at least 500 words); it should be well-written and typewritten; it should include at least 6 citations from the Bainton book (including page numbers) that refer to paraphrased material, particularly important information, and preferably a couple of quotations.

You may use the MLA format, the Chicago format, or any other that pleases you so long as it makes sense. Include a Works Cited section; and include any outside sources you used.
