Peer Evaluation

Your Name: Hong S.

Name of Your Team: Dubois Fan Club

Impact: Each member's peer evaluation score will be the average of the percentage points they receive from the other members of the team. The mid-term score is for feedback only. As noted on the syllabus, the final score for each student will be multiplied by the total team assignment score for the semester (adjusted for attendance) to determine each student's team assignment grade. (For example: $95\% \times 185/200 = 175.75/200$). In making this evaluation, please assign scores that reflect how you really feel. This will be your **only opportunity to reward members of your team who worked hard on your behalf.**

Criteria: Your assessment should reflect your judgment of such things as:

Preparation—Where team members prepared when they came to class?

Contribution—Did they contribute productively to group conversation and work?

Speaking up—Were they willing to voice differences of opinion?

Respect for other's ideas—Did they encourage others to contribute their ideas?

Flexibility—Were they flexible when disagreements occurred?

Instructions: In the space below please rate each of the other members of your team, BUT NOT YOURSELF. Double check to make sure that your scoring meets the following THREE CRITERIA. (1) Make sure your **own name is omitted**. (2) Make some **differentiation** in your ratings; you must give at least one score of 95% or lower, and one score of 105% or higher. (3) Make sure that the **total number of points you assign does not exceed the maximum** listed at the top of the scores column; this number is equal to a 100% average for every member of the team except the evaluator. (For example, you should have a maximum of 500% total in a six-member team; a maximum of 600% in a seven-member team, etc.).

Additional Feedback: On the back, briefly describe your reasons for your highest and lowest ratings. These comments - but *not the information about who provided them* -will be used to provide feedback to students who would like to receive it. Note that **forms submitted without comments will be returned;** and that **10 points will be deducted from the peer evaluation score of any team member who has not submitted a peer evaluation** for the members of their team, complete with written comments.
