Final Exam

(neatly handwrite or type answers directly onto this form)

****FOUR PAGES MAXIMUM, NAME ON BACK OF LAST PAGE ONLY****

1. List directly below the **five terms or names** assigned for RPTs #1-4 (NOT the trial RPT) most clearly relevant to the observations presented in your site visit and follow-up reports. Then use these terms to address the questions that follow.
 - (a) In 2-3 sentences, explain precisely the significance of all five terms in relation to one another. You should paraphrase key details from relevant secondary sources, **citing relevant page #s**; you may also quote short phrases if you wish. Make sure, however, to use your own words to explain connections between the terms; do NOT simply list the meaning of each.
 - (b) Identify explicitly in 1-2 sentences the general relevance of your explanation in 1(a) above to what you observed during your site visit(s)—as well as during interview if you did one—but **defer establishing a connection for each individual term** until your get to 2(a)-(e) below.
2. List an excerpt from **one of your observation reports** for **each of the five terms** identified above. Then note both (i) the way each term informed your understanding of what you observed; and (ii) some contrast between the use of the term in course readings and its relevance to your observations.
 - (a) excerpt from p. ____ of my _____ report:

way(s) that the term _____ informed my understanding of what I described in this excerpt:

way(s) that descriptions of this term in readings contrasted with some aspect of what I observed:
