Usage and Estimate Assignment

Choose one of the shooting assignments below (client #1 or client #2) and complete both:

1. The attached usage form.
2. The attached estimate form.
   (Be sure that the amounts and production needs match the projected licensing on the usage form.)
3. Use the Photographer’s Sample Rates to complete the forms. If the information is not shown on the Sample Rates you are expected to do the necessary research.

For both shoots:
Assume you are shooting digital.
Assume you do not have to rent studio space or equipment.
The clients will provide photo credit.
Neither client wants exclusive rights, though client #2 wants limited rights.
While insurance is essential for commercial photographers, you do not need to price insurance on these jobs.
