Course Description

An examination of the religious and spiritual dimensions of selected films from around the world. The cinematic arts are examined in relationship to religious and spiritual concerns, concepts, and values.

Course Content and Learning Objectives

By the end of the course, students should be able to analyze cultural, spiritual, and religious themes in the global selection of films. Students will examine films by learning to interpret the cinematic elements of character, gender, dialogue, image, *mise en scène*, lighting, and music. Students will identify and critique religious perceptions in film and interpret the cultural significance of each represented world religion and spiritual theme.

In this online learning course students practice reading and study skills and, with assistance from the professor, improve critical thinking and questioning abilities. With face-to-face and online contact with the professor, and with testing, students will be able to interact, understand and integrate the reading, research, and films for the course into a lifetime of intellectual exploration.
