PROFILE

An experienced educator with advanced degrees in mathematics and chemistry. Noted for resourcefulness, clear and engaging communications, and success at teaching subject mastery to inner-city students.

AREAS OF EXPERTISE

- Algebra
- Geometry
- Trigonometry
- Calculus
- Remedial Math
- Organic Chemistry
- Writing Skills
- Verbal Communication Skills

WORK EXPERIENCE

Any School, Any City, Any State
Mathematics Teacher, 1999 - Present

- Designed and implemented lesson plans for four classes: algebra, geometry, trigonometry, and calculus.
- Restructured classroom policy to reflect a supportive classroom management style.
- Counterbalanced "senioritis" by instituting cooperative learning; students teaching and testing themselves chapter-by-chapter.
- Motivated students to increase their mathematics enjoyment-invited speakers to class who spoke about how math is essential to their careers.
- Measured daily student progress in math concepts class.

WORK EXPERIENCE

Any School, Any City, Any State
Organic Chemistry Teacher, 1995 - 1999

- Designed and implemented lesson plans for Organic Chemistry classes.
- Motivated students to increase their chemistry skills by inviting speakers to class who spoke about the history and benefits of organic chemistry.
- Measured daily student progress in organic chemistry through mini-exams.

EDUCATION

- California State University, Sacramento - M.A., Mathematics, 2003
- California State University, Sacramento - Teaching Credential, 2000
- California State University, Chico - B.A., Chemistry, 1995

CERTIFICATION

State of California, Single Subject Professional Clear Teaching Credential in Mathematics and Science, June 1997. Certificate #9999999
