Button Actions: Places to Go

Another card: Takes you to another card in this stack or in another stack.

Next card: Links to the card after the current card.

Previous card: Links to the card before the current card.

Back: Takes you back to the last card you were on.

Home stack: Takes you to the HyperStudio Home Stack or to another stack titled Home Stack.

Last marked card: This will take you to the last marked card you were on. Cards can be marked in the Card Info box in the Objects Menu.

Another stack: Links to the first card in another stack. If you want to link to a different card, use **Another card**.

Another program: Links to a program other than HyperStudio. When you quit the other program, it will take you back to the HyperStudio card with this button.

None of the above: Stays on this card while doing one of the other actions.
