

Button Actions: Things to Do

- Play a sound ...** Record your own sound or choose a sound file from a disk.
- Play a Movie or Video ...** Use this button to have HyperStudio play a QuickTime Movie, a laserdisc sequence, or live video.
- New Button Actions ...** Programs that add additional functions to HyperStudio. There are NBAs in a built-in HyperStudio Library. There are others on disk. *Examples: Roll Credits, Animator.*

- Play animation ...** Use this button to create, preview and play animations.
- Automatic timer ...** Creates a button that can be executed automatically.
- Use HyperLogo ...** Write scripts using HyperLogo.
- Testing Functions ...** Sets up a file that keeps track of correct and incorrect answers.
