

Apple Multimedia Rubric: Part 2

Aspect of Project	1	2	3	4
New Growth	I gained an awareness of a new technology skill.	I learned to use a new technology or skill.	I integrated the new technology skill with at least one other person in the group.	I identified ways to apply the new technology/skill in another learning project.
Questioning	I was unable to come up with a research question.	My question is incomplete and unclear. My teacher needed to help me form a question.	My question is clear and well focused. My question requires moderately high level thinking skills.	My question is clear, well-focused and requires high level thinking skills in order to research.
Planning	I was unable to come up with an organized plan and work within the time limits.	I needed teacher help to list and organize what I needed to do. There are some steps missing in my planning. I made revisions with teacher help.	I was able to work within the time frame my teacher gave me. I was able to develop a system to organize my information. I was able to make revisions with help from my teacher.	I made really good use of my time. I was able to remain focused on the tasks and make changes when I needed to. I was able to develop a clear method to organize my information. I was able to make revisions in my plan when needed.
Gathering	I lost focus during the gathering process and therefore my information was not accurate and complete.	I used 1 or more sources. Original question or focus guided my search, although I should have made revisions. I made errors in selection of references.	I used many resources to find information that answered my question. I tried at revising my search, but had some problems doing so.	I used a variety of resources and carefully selected only the information that answered my question. I was able to continually revise my search based on information I found.
Sorting	I was unable to sort and organize the information I found to answer my question.	I tried to organize the information I found, but I made some mistakes. I wasn't able to completely stay focused on information that would answer my question.	I sorted information and organized information that answered my question without too many errors.	I thoroughly selected and organized information that answered my question in a organized way. I selected information that was appropriate.
Synthesizing	My product is incomplete and contains missing details and it isn't completely accurate.	My product is not complete and only answers part of the question.	My product answers the question in a way that reflects learning using some detail and accuracy.	I used the information I found in a meaningful way to create an original product that clearly answers the question with accuracy, detail and understanding.
