

## Check Your Understanding: Fronts & Weather

Name \_\_\_\_\_

Figure 1 shows a front that passes through Minnesota (MN), Iowa, and Nebraska (NE). The numbers on the map are temperature readings. This front is moving toward the southeast as indicated by the arrow.

1. Is this a **cold** or **warm** front?  
(circle one)
2. Complete this map by putting the appropriate symbol on the front in figure 1.
3. You are gathering the family to attend a graduation party in central Iowa, and are in charge of forecasting the weather for the day. Based on this weather map, what would your forecast be?
