Engineering Challenge   Name: _____

In the space below, use pictures and words to explain your engineering solution to protecting the Chinese oil and gas fields near to the Huang He River delta.

Streams   Name: _____

In preparation for next week's NGSS activity, please read the article *California's Next Nightmare* (on the pink handout provided). Answer the following questions:

Name two events that might lead to a megaflood in Sacramento	
What would happen to the area, if there were a megaflood? List at least 3 impacts:		
---	---	---
What evidence is given to support the claim that Sacramento has a flooding problem (How do they know that it is likely that Sacramento will flood)? Give three lines of evidence:
