

## Works of Art in Public Spaces at California State University (10/09)

1

This is a shorter version of an inventory created in **October 2004**, with a focus on art that is more easily seen because it is installed outside on the campus grounds or inside buildings readily accessible to the general public, such as the University Library, University Union, Napa Hall, and Sacramento Hall (Administration Building). Several pieces in the University Library are illustrated on its website (<http://library.csus.edu/exhibits/libart/>). Omitted from this list are all anonymous pieces and all art on view in temporary exhibitions in galleries across campus.
