View Printable Version      \*Go to: ...More...

1. Requestor: Will populate if user has only one requestor associated with the user ID. If it does not populate, click the search icon and select a requestor from the list.
2. Requisition Defaults link: previously called Header Defaults. This link will take the user to the Requisition Defaults page.
3. Add Comments link: previously called Header Comments. Allows user to enter comments that pertain to the entire requisition. These comments will print on the requisition. The comments page includes a new spell check feature. 
4. Line Coments Icon: Allows the user to enter comments that pertain to a specific line item.
5. Schedule Icon: Links to the Schedule Page.

To Create a New Requisition  
 Step 1: Enter Requester  
 Step 2: Enter Line information such as Description, Quantity, UOM, etc.  
 Step 3: Select the Requisition Defaults Link

Maintain Requisitions

Requisition Defaults

Business Unit: SACST      Requisition Date: 03/13/2009  
 Requisition ID: NEXT      Status: Open

Default Options

- Default**      If you select this option, the default values entered on this page are treated as part of the defaulting logic and are only applied if no other default values are found for each field. If default values already exist in the hierarchy, they are used, and the values on this page are not used.
- Override**      If you select this option, all default values entered on this page override the default values found in the default hierarchy.
