

What's Your Employability Quotient?

When employers look for new talent,
they target employees with **drive... determination...**
a **commitment** to continued personal growth...
and most importantly, **solid communication skills.**

If you're looking to take your career
to the next level — without going
back for that MBA — look to
Toastmasters.

Just one hour a week...
you'll be surprised just how much
your outcome — *and income* —
may change.
