Music Education Concentration

Department of Music

Fall, 2011 enrollment - 0
Report completed by Ernie M. Hills and Robin Fisher
February 3, 2012

Note: As a direct result of our national accreditation visit by the National Association of Schools of Music last October, the department has chosen to eliminate this program. The assessment of the self-study and subsequent visit revealed that the viability of this program was unlikely without substantial new resources. In light of the present economic situation and low enrollments, the department has chosen to eliminate the program so that it can funnel valuable resources into its three viable graduate programs.

Given that the program’s elimination has cleared all but the final approval of the University Curriculum Committee and our general confidence that they will approve the request for elimination, the completion of this template serves no purpose.

Our suggestion to the Instructional Program Priorities Committee is that they place this program in the lowest quartile and concentrate their efforts on programs that exhibit the vitality necessary for continuation.

Thank you.
