Focus group questions – Spring 2011 – Traditional BSN
School of Nursing

1. What was your experience with the orientation process once you received your acceptance into the Nursing program?
   • How sufficient was the information for you?
   • How well did our orientation day help you?
   • What information would you have liked to have received?

2. Regarding the individual courses
   • Did the courses provide you with the learning opportunity necessary to meet the course objectives?
   • Was there anything missing in the course that you would have liked to have had?

3. What were your overall impressions or perceptions of the BSN program?
   • What learning experiences stand out as most helpful or least helpful?
   • What changes would you like to see in the overall curriculum? If you could redesign it, would you change it, adding or removing?
   • Do you feel you have been adequately prepared for BSN level competency in all areas?

4. When you look back 5 years from now, how do you think you will view the quality of the program or curriculum – how will you see it?
