CourseMatch – Cross-Campus On-Line Course Offerings throughout the CSU

Spring 2015

There are 54 semester courses from across the CSU system that have been approved to be offered on-line through the CourseMatch Cross-Campus Enrollment program. Current students in good academic standing who have earned at least 12 units and who have paid tuition and fees as a full-time student at Sacramento State for Spring 2015 are eligible to enroll.

For detailed information about the program and courses offered, go to the Cal State link: www.calstate.edu/concurrent. Once your eligibility is confirmed, you can search the Schedule of Online Classes for Spring 2015. The online course schedule provides information regarding whether the course is lower or upper division, the number of units, and general education requirements satisfied by the online course.

Once you determine which class you may be interested in, you need to go to you Student Services Center portal, choose the Enroll in CourseMatch link on the left under Academics, select Spring 2015, Search for Classes and enter/select the class and continue to confirm your requested course selection.

Please Note: The first day of instruction at other CSU campuses begins as early as Saturday, January 17, through Monday, January 26. More information may be found on the Registrar’s webpage: http://www.csus.edu/Registrar/index.html right hand column – New – Online Courses Spring 2015.

Thank you.
